Classic spirit Pioneering excitement

The new Stinger was born from a passion for driving, deeply rooted in the hearts of true motor enthusiasts. From the low-slung bonnet to the muscular rear, every striking line references the classic spirit of Gran Turismo. But that's not all. This awe-inspiring Kia paves the way for a new era of powerful style, exceptional performance and simply the greatest experience on the road.

Be inspired Enter the driver's realm

Pure yet exclusive. The new Stinger takes its inspiration from sporty GT styling paired with the latest in driver-assistance technology. The striking interior features circular aircraft-style vents, metal-ringed gauges and satin chrome trim. From the low-slung driver's seat - with soft nappa leather as standard, you have essential information close to hand, courtesy of the supervision cluster in the instrument panel or the Head-Up Display. The 10.25" frame-less navigation screen in the centre console covers all your multimedia needs.

Get ready to take control

The new Stinger is proud to be a driver's car. That's why everything is designed around you with extra-supportive seats and technology to make even the longest journey effortless.

► Air cell side-bolster adjustment

The side-bolster adjustment ensures maximum lateral support.

► 4-way Aircell Lumbar Support

Ideal for long journeys, the 4-way Air cell lumbar support helps you adjust seatback settings for maximum lower back comfort and support.

► Cushion extension

To help beat fatigue, an optional cushion extension moves the front edge of the driver seat forward for greater thigh support.

Dual-Zone climate control A standard dual-zone full auto temperature control system gives the driver and the passenger separate controls, allowing people with different climate needs to ride together in comfort. **Integrated Memory System (IMS)** The Integrated Memory System saves two presets for driver's seating positions, outside rear-view mirrors, Head-Up Display and cluster display. It's a simple way to keep the Stinger totally personalized, yet flexible enough to make another driver feel at home. **Door scuff** To protect the finish of the lower door sill, an attractive door scuff lets you conveniently wipe soiled shoes before getting in. The metallic finish complements similarly finished design elements around the cabin, offering a pleasing visual touch every time the door is opened. **Paddle Shifters** The paddle shift levers allow you to change gears swiftly without taking your hands off the steering wheel. It also makes dynamic driving effortless, as you can increase torque faster, while staying in control of shift points. **Ventilated front seats** Providing cool, soothing airflow on hot days, and more effective and thorough heating on cold days. Both the seat cushion and the seatback feature airflow perforations to keep more of the body in a state of comfort.

Sit back & enjoy the ride

Black Premium Nappa Leather

Console upper cover garnish

The days when sporty cars were sparse racing machines are long gone. In fact, one major benefit of the Stinger's long wheelbase is the spacious cabin. It ensures that all passengers can enjoy the welcoming space of this sleek and uncluttered fastback.

Also, the individually adjustable and comfortable 8-way power seat for the driver and the 6-way power seat for the front passenger give you all the comfort and support you need - regardless of whether you're recreating your own Grand Tour or commuting to work.

Rear cabin roominess The new Stinger offers ample headroom, shoulder room and legroom for rear passengers to sit comfortably and stretch out.

Wide sunroof A wide, tilting and gliding, one-touch sunroof, that allows plenty of sunlight and fresh air into the welcoming cabin at the touch of one button.

Accelerate your heart beat

The new Stinger combines high agility, and great acceleration into a refined unique sporty driving experience that aims to please. The 8-speed automatic transmission ensures smooth gear changes that paired with the dynamic handling of the Stinger results into the perfect drive in every condition.

3.3 V6 T-GDI RWD

The most powerful D-CVVT V6 petrol engine with a twin-turbo-charger in the Kia range responds and accelerates beautifully, while achieving considerable torque over a broad rpm range. Bespoke intake and exhaust systems also add to the exceptional performance.

8-speed automatic transmission

Quick and seamless gear changes are the hallmarks of the 8-speed automatic transmission. While designed to maximise fuel efficiency, a Centrifugal Pendulum Absorber limits noise and vibration.

Electronic parking brake (EPB)

An electronic parking brake offers quick, secure activation without the effort required by traditional mechanical brake levers. Pull on the EPB switch on the center console to activate the parking brake. Auto Hold mode temporarily maintains the vehicle at a standstill even if the brake pedal is released.

Conquer & control whatever the weather

Electronic Stability Control (ESC) Optimal braking performance and directional control is achieved by automatically delivering the right amount of braking force to each wheel based on evaluation of engine torque and driving circumstances.

Drive Mode Select (DMS) DMS changes the driving characteristics of engine, transmission, suspension, steering and RWD. It can even alter the engine sound. Choose between 5 drive modes - Comfort, the default mode for smooth acceleration and comfort, Sport for a more dynamic ride, Sport+ for dynamic driving with less stabilisation, Eco to save fuel and Smart for intelligent adjustments of driving characteristics.

Advanced High Strength Steel (AHSS) and hot-stamped steel

The new Stinger is fitted extensively with Advanced High Strength Steel (AHSS) for exceptional rigidity. It also features hot-stamping technology to further increase robustness in more crucial areas, including single-piece door-side frame sections that help disperse impact forces in a collision.

21 parts hot-stamped components | 173 metres advanced adhesives

7 airbags To help protect occupants and potentially reduce injuries in the event of a collision, the new Stinger offers driver and front passenger airbags, two front-side airbags, two side-curtain airbags, and a driver's knee airbag as standard.

Knee airbag The driver's knee airbag helps minimise impact and injury to the driver's knees in the event of a collision.

Active Bonnet System To help protect pedestrians from serious head injury in the event of a collision, AHLS can detect impact with a pedestrian and automatically raise the hood. This allows the deformation space to be increased and the risk of injury to be considerably reduced.

Go with the flow Cut through the air

Starting with a clean slate, inspired by classic Gran Turismo styling, the creation of the new Stinger offered a treasure of opportunities. The result combines iconic beauty with the latest in aerodynamic technology and noise minimisation. While the exterior is shaped to minimise drag and to maximise stability and control, the structure and interior is designed to isolate passengers from noise and vibrations.

Front bumper with integrated air curtain The Stinger's breathtaking front serves a clear purpose; the front bumper's integrated air curtain helps manage airflow, reduce drag and direct cooling air to the radiator and front brakes. Equally, the lower apertures direct airflow to the wheel wells, which reduces drag and helps cool the brakes. Aside from fuel savings and noise reduction, the front design also contributes to the car's stability.

Rear integrated diffuser An integrated diffuser panel under the rear bumper helps control airflow and prevents the dual exhaust pipes from creating drag under the car. It pays homage to racing diffusers which lower the turbulence that can occur when low-pressure air under the car meets higher pressure ambient air.

Boot lid with spoiler effect To improve stability and optimise airflow that forms behind the Stinger when travelling at higher speeds, the trailing edge of the trunk lid is arched, providing a spoiler effect - and a stunning finale to the Stinger silhouette.

Multiple undertray and aerodynamic effects While the aerodynamic aspects of the silhouette are plain to see, the Stinger also boasts vital drag reduction features that improve airflow underneath the car. It uses a system of sturdy undercovers, below the engine and transmission, each side of the cabin, and each side of the rear suspension. These covers reduce the flow resistance on the underside of the body when travelling at higher speeds.

Noise-Vibration-Harshness (NVH) Inside and out, every element of the Stinger has been engineered to reduce noise, vibrations and harshness. The engine area and dashboard feature extra insulation, while the joints of body pillars and frame boast additional padding. New insulation materials, a reconfigured exhaust, and stiffened rear cross-member also add to the quiet, smooth ride. Side mirrors and doors are sculpted to minimise noise and drag. Plus, rear wheel-drive models use a Centrifugal Pendulum Absorber to reduce vibration.

Let intelligence guide you

DriveWise technologies combine Kia's ADAS (Advanced Driver Assistance Systems), a series of intelligent safety innovations that help reduce many of the inherent dangers and stresses of driving on today's roads. Ultimately, they lead to improved on-road safety and hassle-free, enjoyable driving.

Safety. DriveWise technologies recognise dangers at an early stage thanks to an intrinsic system of sensors and cameras. It is designed to improve safety by pre-emptively eliminating the risk of accidents.

Convenience. DriveWise technologies are designed to offer as much information as you want, and as little as you need to maximise convenience. It allows you to stay autonomous and to focus on essential tasks instead of more tiresome chores.

Efficiency. DriveWise technologies help improve quality of life by supporting more fuel- and time-efficient driving.

Forward Collision-Avoidance Assist (FCA)

Evaluating both camera and radar data from your vehicle, the FCA system analyses information about other cars, pedestrians or cyclists crossing the road, to avoid a potential collision with them. FCA also functions to prevent collisions with vehicles when making a right turn at a junction. If it detects a potential collision, a warning signal appears on your instrument cluster and maximum braking power is applied.

Blind-Spot Collision-Avoidance Assist (BCA)

When you want to change lane, the Blind-Spot Collision-Avoidance Assist system detects any vehicle(s) in your blind spot and alerts you with a warning symbol in your side mirror and on the head-up display inside the car. Should you start to change lane while a car is in your blind spot, the new Stinger will automatically apply the brakes to avoid a collision, the side mirror and head-up warning symbols will flash and an audible alert will sound.

Lane Following Assist (LFA)

Kia's level 2 autonomous driving system takes a giant leap towards semi-automated driving. In collaboration with Smart Cruise Control, LFA controls acceleration, braking and steering depending on the vehicles in front. This makes driving in traffic jams easier and safer. The system uses camera and radar sensors to maintain a safe distance to the preceding vehicle and monitors road markings to keep your car in the centre of your lane.

Highway Driving Assist (HDA)

HDA maintains the speed set by the driver or the speed limit of the motorway. At the same time, it controls steering, acceleration and deceleration in your lane, while keeping a safe distance from the vehicle ahead. Designed to automatically adjust your speed based on the speed limit of the road detected through the navigation system.

Blind-Spot View Monitor (BVM)

Designed to improve visibility for blind spots, the BVM uses side cameras so that when you indicate left or right, your instrument cluster will show the view of the road in your blind spot. Indicate left and it will show you the rear view down your left-hand side; indicate right and it will show the right-side view.

Safe Exit Assist (SEA)

Designed to help prevent rear passengers from exiting the vehicle when the system detects potential hazards approaching. If that happens, the system will engage the power locks, and give an audible and visual alert.

Navigation-based Smart Cruise Control-Curve (NSCC-C)

Entering a curve too fast can be a big problem. To help you maintain control, NSCC-C uses navigation system data to evaluate upcoming curves, then reduces the cruising speed until you exit the curve, and finally resumes the preset speed.

Intelligent Speed Limit Assist (ISLA)

As you enter a new speed zone, ISLA automatically overrides your set SCC speed accordingly. It uses speed-limit data detected through the front-view camera or provided by the navigation system's database and GPS.

Build your Stinger

Stay tuned to your world

When the open road beckons, the Stinger helps you focus on enjoying the ride thanks to sophisticated, convenient technology. From the 10.25" frameless navigation system to the supervision cluster all your vital sources of information are close at hand and intuitive to use.

10.25" frameless navigation system The sleek navigation system comes with a large 10.25" floating touchscreen for effortless multimedia access. It keeps you on track with navigation, real-time updates and much more. Plus, it also connects to the sound system.

7" screen supervision cluster The high-definition 7-inch TFT LCD in the supervision cluster provides customisable data essentials - from average fuel economy to turn-by-turn navigation information.

Wireless smartphone charger Enjoy convenient, cable-free charging and place your compatible smartphone on the optional wireless phone charger on the centre console. It even alerts you if a device is left on the charger, when you exit the Stinger.

Turn up the excitement

The Gran Turismo lets you celebrate driving in style. With the perfect sound track - courtesy of the optional Harman Kardon® sound system - and with sophisticated technology like the Head-Up Display which helps you focus on the road.

Head-Up Display (HUD) To help keep your eyes on the road, the height-adjustable 8" colour Head-Up Display (HUD) shows key driving information reflected on the windscreen. It includes speed, turn-by-turn navigation, smart cruise control settings, speed limit and Blind Spot Detection information.

Harman Kardon® Premium 15-speaker sound system

To enjoy world-class sound, the optional 720 watts Harman Kardon® sound system features 15 speakers including Kia's first under-seat subwoofer tucked beneath the driver and passenger seat. Clari-Fi™ technology enhances the digital audio experience while the latest in QuantumLogic™ Surround Sound technology distributes the sound for an authentic, refined multidimensional soundstage throughout the cabin.

UVO Connect... Your free seven-year connected services.

UVO Connect opens your Kia to the world of connected services. Once activated, it enables a number of essential digital features in your car. You can also install the UVO app on your smartphone and pair it with your Kia to control certain functions remotely and consult a wealth of information about your car.

In-car services

Your free seven-year UVO Connect, once activated, uses your vehicle's embedded SIM card to connect it to the world of live data.

Real-time traffic information

Your navigation system uses live traffic information to recommend the best route and dynamically predict the most accurate arrival time.

Speed cameras and danger zones

Be alerted to speed and traffic light cameras, and to areas where accidents are particularly common.

Weather forecast

With up to three days' weather forecast available, you can check weather conditions at your destination.

Points of interest

Are you looking for a place to eat, a local business or somewhere special to visit? All this information and more is easily accessible via your Kia's live, connected directory.

Parking

UVO Connect helps you find available parking locations. It shows on- and off-street parking locations, including prices and likely availability.

Fuel station information

The system shows you the nearest petrol stations and prices to plan a refuelling stop.

Online voice recognition

Use voice commands to find nearby points of interest, weather conditions or send a text message.

Mobile application services

Once UVO is activated in your Kia, it gives you access to a wide range of useful functionalities through the UVO mobile phone application (available on Apple™ and Android™).

Find my car

You can check the location of your car from your smartphone so you never lose track of it.

Vehicle status

The UVO app gives you an overview of your Kia's status including fuel/battery level, doors, windows, bonnet or tailgate. It lets you know if any of the vehicle's functions isn't working properly.

Notifications and remote door control

You get warned if your vehicle's anti-theft alarm is triggered or if you left your doors unlocked. What's more, you can lock and unlock doors from your phone, wherever you are.

My trips

Consult a summary of your trips, including time, distance travelled and speed information.

Send to car

Select your destination on your phone and send it to your vehicle so you can set off straight away once behind the wheel.

KIA Care Service Plans

For complete peace-of-mind, Kia can offer you a great value fixed-price servicing package for your Kia Stinger which is called Kia Care. Please speak to your Kia dealer for more information and pricing. Terms and conditions apply. Log onto www.kia.com/uk for details.

5-year paint warranty & 12-year anti-perforation warranty

High-quality body paint ensures long-lasting protection and shine for your new Kia. It also comes with superior corrosion protection and a 12-year warranty against rust from the inside out.

Financing

Your local Kia dealer can help you with a financing plan that's best suited to your needs. Log onto www.kia.com/uk for more details

10 more reasons to join our Kia family

Now there are even more reasons to buy a stylish, technology packed Kia. Peace of mind comes as standard when you join the Kia family with the Kia Promise - 10 great owner benefits when you buy your Kia and register at MyKia.

There are a lot of things to consider when buying a new car. Compromising on reliability in the long term shouldn't be one of them. That's why Kia have redefined quality and offers a unique, industry-leading 7 year warranty that comes with peace of mind for at least 100,000 miles.

Our 24/7 Roadside Assistance package is designed for Kia owners in partnership with the RAC. All new cars have complimentary cover for 12 months from the first date of registration. If you register on MyKia, you can unlock Kia Roadside Assistance Plus, giving you the highest level of cover provided by the RAC, including onward travel and European cover.

Online service booking offers convenience and flexibility 24/7. Offering quality and value at one of our Dealers nationwide. Kia trained technicians use the latest diagnostic equipment and technology. All of our Genuine Kia parts come with a 2 year warranty. Fully inclusive pricing at the click of a button.

Available to all Kia owners, whoever your insurer and whatever the circumstances, Kia Accident Aftercare will take care of things for you. We will liaise with your insurer, provide a free courtesy car and ensure your car is repaired at a Kia Approved Bodyshop using Kia repair methods and original parts.

We have partnered with Pod Point and bp pulse so you can quickly and conveniently charge your electric and plug-in hybrid Kia at home.

Our Driveaway Insurance has you covered from the minute you leave the Dealership. We will also give you a £250 Excess Return Voucher which pays you back regardless of who you are insured with providing you call Kia Accident Aftercare before you call your insurance company. We will also provide you with a competitive quote for your annual cover.

Order Genuine Kia accessories, where and when you need them! Our Click & Collect service offers choice and convenience, recognising your model from the registration number to ensure you get exactly what you need. Then simply collect at your nearest Dealer, where they can fit them too.

When you own a Kia, you become part of the family and benefit from a relationship based on trust and transparency. When you visit one of our dealers for a service, your vehicle will benefit from a complimentary Health Check, a wash and vacuum and alternative transport if needed. Welcome to the Kia family!

Kia offers you free seven-year connected services with UVO Connect. Once activated in your vehicle, UVO Connect enables a number of digital features in your car like real-time traffic data. You can also install the UVO app on your smartphone and pair it with your Kia to interact with your vehicle in new ways.

Kia Charge makes public charging easy. Kia Charge is the only solution you need to charge your electric or plug-in hybrid Kia across multiple networks in the UK and Europe.
