

BOOK A TEST DRIVE

## **OPÉRA** RIVOLI BASTILLE PERFORMANCE LINE

THE DISTINCTIVE QUALITY OF FRENCH SAVOIR-FAIRE

Chic and contemporary, DS 7 CROSSBACK's interior is faithful to our philosophy of personalisation. To cater for everyone's tastes we've created four different kinds of ambiance that we call DS Inspirations.

BOOK A TEST DRIVE

### SOPHISTICATED COCKPIT

You can personalise the smart graphics of the driver's 12.3 inch digital instrument cluster. A scrolling menu controlled via the steering wheel gives you a read-out of all the driving information you need. It has six modes including satellite navigation and DS NIGHT VISION.

DS NIGHT VISION

The central 12 inch HD touchscreen\* includes a central Crystal control for volume, as well as a range of shortcut buttons below the screen. This set of controls gives you immediate access to features including comfort, media and Bluetooth® connectivity.

You can also access a host of services such as SOS and DS Assistance, your car's maintenance record, connected navigation, and entertainment via Mirror Screen\*\* with Android Auto™, Apple CarPlay™ and MirrorLink®.

APPLE CARPLAY T

<sup>\*</sup>Depending on the model \*\*Available with compatible smartphones

### COMFORT AND SPACE IN ABUNDANCE

On board DS 7 CROSSBACK passengers can relax with plenty of room, notably in the back seats, which recline electrically from 23° to 32°. We've designed seats with a high-density sponge that's comfortable yet supportive. The front seats can be heated, ventilated or set to massage, with five modes available, operated from the central touchscreen.

DS 7 CROSSBACK can be specified with an opening panoramic sunroof and electric blind. This roof is made up of two glass sections. The front section slides back over the fixed rear section for an open-air ambiance.

DS 7 CROSSBACK enjoys the biggest boot in its class (5551) as well as a flat floor when the seats are folded down. For ultimate versatility, the Premium City Pack includes an electric tailgate, which can be opened and closed by simply moving your foot beneath the rear bumper. This allows you to access the boot with ease, even when your hands are full. Keyless entry and start are also included in the Premium City Pack.

**BOOK A TEST DRIVE** 

### DS NIGHT VISION: SEE IN THE DARK

By helping you to see better at night, DS NIGHT VISION enables you to build an accurate picture of the road ahead and spot hazards sooner. An infrared camera in the grille detects pedestrians and animals in the road up to 100m in front.

You'll see the road ahead in the digital instrument display with potential hazards highlighted in yellow, changing to red as they get closer. An audible alert can sound depending on how close these are. This enables you to anticipate hazards and react accordingly.

\*Image for illustration purposes only

### DS DRIVER ATTENTION MONITORING: STAY FOCUSED

DS7CROSSBACK benefits from DS DRIVER ATTENTION MONITORING technology, which can detect a dangerous drop in concentration.  $An infrared \, camera \, above \, the \, steering \, wheel \, works \, in \, conjunction$ with a camera at the top of the windscreen to monitor three signs of distraction or drowsiness: movements of the eyes, eyelids and neck. The system also assesses the trajectory of the vehicle in relation to road markings. This enables it to detect deviations or sudden steering movements by the driver.

As soon as DS DRIVER ATTENTION MONITORING finds an anomaly in one of these factors, whatever the time of day or night, it automatically gives an audible alert, while a warning flashes up on the screen.

### DS ACTIVE LED VISION: SEE AND BE SEEN

DS ACTIVE LED VISION headlights are a combination of form and function. Three rotating LED modules and a main LED projector make up each headlight. Depending on the angle of the steering wheel, the speed of the car and weather conditions, these swivel from side to side and even up and down. This enables your range of vision to be increased or reduced, with the beam of light broadened or better positioned to illuminate what you really need to see.

Lighting modes available on DS 7 CROSSBACK:

- Town: the beam's width is increased to enable you to identify hazards at the side of the road.
- Country: activated from 30mph, this mode offers a field of vision focused straight ahead (most suitable for country roads), but sufficiently spread towards the sides of the road to illuminate hazards.
- Motorway: above 70mph\* the brightness of the lighting modules is more intense. The headlights are raised slightly to increase the beam's range.
- Adverse Weather: when the windscreen wipers are on, the power of the lighting modules increases to help you pick out white lines. The main projector reduces its intensity to avoid any risk of dazzle from the wet road.
- High Beam: this lighting mode can be activated at any moment by the automatic main beam function. The power and range of the lights are set to maximum to illuminate the length and breadth of the carriageway.

<sup>\*</sup> Subject to local speed limits

**BOOK A TEST DRIVE** 

### ACTIVE SAFETY BRAKE

Designed to avoid or limit the effects of a collision (automatically activated above 3mph). A windscreen mounted camera, assisted by radar\*, detects obstacles ahead and automatically slows or brings DS 7 CROSSBACK to a halt without you having to touch the brake pedal.

### DS CONNECTEDCAM

Housed in the base of the rear view mirror, this camera system enables you to store photos and videos of your journeys. Thanks to its WiFi connection the data recorded by the camera can be transferred to a smartphone. DS ConnectedCAM can also record video in the event of an accident.

### REVERSING CAMERA WITH 360 VISION

Activated when you select reverse gear, the reversing camera enables you to see what's behind the car and gives you a bird's eye view of DS 7 CROSSBACK's surroundings.

### LANE **KEEPING ASSIST**

Lane Keeping Assist detects the car wandering across lanes of traffic and brings DS 7 CROSSBACK back into line. When it notices unintended lane deviation, the system gently countersteers to keep the vehicle in its lane. A light also flashes in the instrument panel to make you aware.

ACTIVE BLINDSPOT DETECTION

This system warns you when there's another vehicle in your blind spot. This is conveyed by a flashing light in the external door mirror on the side concerned. If required, the system prevents DS 7 CROSSBACK from straying into danger.

\* Radar with DS CONNECTED PILOT

**BOOK A TEST DRIVE** 

### DS SENSORIAL DRIVE

DS7CROSSBACK enables you to express yourself through personalisation. DS SENSORIAL DRIVE offers something completely unique for the senses through two choices: Cashmere and Titanium.

### DYNAMIC TRANQUILITY

Comfort is a given the moment you're on board. Our engineers selected high density foam when they were designing DS 7 CROSSBACK's wide and welcoming seats. This guarantees complete comfort and long-lasting support. Technology plays its part in the front seats too, which can be heated, ventilated and massaging, with five modes available. The multipoint massage function allows front-seat passengers to completely relax. Controlled via the central touchscreen, the driver and passenger seats can be controlled independently.

### ONLY YOU SERVICES (1)

### MVDS App - THE KEY TO YOUR WORLD OF DS

Your essential everyday assistant, the MyDS App lets you access the wide range of exclusive Only You services and keeps you permanently connected with your DS. Compatible with every DS (2), MyDS App is at your side before, during and after your drive (3).

### DS ASSISTANCE - DRIVE WITH PEACE OF MIND

FREE FOR THREE YEARS (4), AVAILABLE 24/7 IN CASE OF BREAKDOWN OR ACCIDENT

So you can drive with complete peace of mind, we've made life easy by guaranteeing you'll stay mobile, no matter what happens. Accident, breakdown, lost keys or misfuelling are all covered by DS ASSISTANCE with free 24/7 support wherever you are in Europe, available by pushing the DS button in your car, via the MyDS App, or by calling 0800 877 8455 (6).

### DS VALET - A VALET MAKES LIFE EASIER

As time is your most precious commodity, we've created DS VALET. Instead of taking your DS to a DS Workshop or maybe even during the purchase of your DS, this unique service provides you with a personal valet who will help you along the way.

### DS RENT - SHORT-TERM DS HIRE

To drive a DS wherever you go, or use your travels to try something new from the DS collection, you can book one from your smartphone using MyDS App, or from your DS retailer.

### DS CLUB PRIVILEGE (7) - SPECIAL ACCESS TO ONCE IN A LIFETIME EXPERIENCES

FIND A DEALER

By driving a DS you've chosen to experience the best French expertise and sophistication has to offer. To give you an unforgettable experience, we've created DS CLUB PRIVILEGE. To become a member for five years, simply apply via MyDS App. Available straight from your smartphone, our world of privileges has been designed around you.

DISCOVER THE WORLD OF DS THROUGH UNIQUE EVENTS AND ENJOY EXCLUSIVE BENEFITS:

These can include private events such as exhibition previews, cookery courses with a celebrity chef, meeting experts in French savoir-faire, private sales of gourmet foods, getaways, shopping and other special activities.

Free from a landline. From a mobile, tariffs may vary according to network provider.

- (1) According to availability in the authorised DS network.
- (2) Bluetooth® connection to a compatible smartphone required.
- (3) Requires compatible smartphone, internet connection and navigation. Data charges may apply.
- (4) From date of vehicle registration.
- (5) For conditions go to DSautomobiles.co.uk
- (6) Free calls from a landline in Europe.
- (7) In the six months after the purchase of your vehicle.

DIMENSIONS **ENGINES** DS prefers **TOTAL** 

The grouped figures shown above show the lowest and highest performing results for this model. Consult your dealer for information on specific examples. The fuel consumption you achieve, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO<sub>2</sub> figures. These CO<sub>2</sub> figures, however, are based on the outgoing test cycle NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These figures are used to calculate tax for first registration. You should only compare fuel consumption and CO<sub>2</sub> figures with other vehicles tested using the same technical standard

### SERVICE PLANS & WARRANTY

To keep your DS performing at its best, it's important to Service your vehicle in line with our recommendations. By paying a fixed monthly amount, all of your Scheduled Services will be carried out by an Official DS Workshop. Alternatively, choose to pay the full amount upfront, whichever suits you best. The price of your DS Service Plan will depend on the number of miles you cover, as well as the length of your contract. Contact your local DS dealer for a personal quote.

Every DS has the benefit of a 3 year\* warranty, plus a 12 year anti-perforation\*\* warranty and a 3 year paint warranty. To extend your vehicle warranty to 4 or 5 years, ask your local DS Dealer about an extended warranty.

ORDER ONLINE

FIND OUR TECHNICAL SPECIFICATIONS ON DSAUTOMOBILES.CO.UK

<sup>\* 2</sup> years unlimited warranty. No-fee customer option of 1 year Dealer provided warranty, only on cars supplied by the DS UK dealer network. Note: Dealer provided warranty is limited to 60,000 miles.

<sup>\*\*</sup> Against all internal to external perforation to bodywork or underbody.

   Crystal controls

<sup>\*</sup>Stock only

# **DS ACTIVE LED VISION**

The headlights on DS 7 CROSSBACK feature full LED technology. Each one comprises three rotating modules with an animated "Magic 3D" function and a main LED projector. They also include the Adaptive Front System (AFS), a function designed to adapt the lighting to the road. This modern technology contributes to both comfort and safety through its variable power, clear visibility and immediate activation with clear, automatic signals.

At night, the Adaptive Front System function manages different lighting modes for each driving situation. For each one, the angle and intensity of the main headlights and modules vary in order to increase or reduce the range of the beam. The modules swivel and dip to widen or direct the beam to light up the roadside to a greater or lesser extent. This function is active only if the lighting is in automatic mode and can be deactivated via the central touchscreen.

### **TOWN BEAM**

The projector beams are of medium intensity with the modules turned outwards. This makes the beam wider, enabling the driver to see potential hazards (such as pedestrians, junctions, etc.) on the roadside more easily The beam range is 280m. This lighting mode is activated after three seconds at a speed below 30mph.

### **COUNTRY BEAM**

The beam is straighter with intensity increased for the projectors and reduced for the modules. In this way, the field of vision is directed towards the front (better suited to country roads), while being sufficiently wide to see any potential sources of danger on the roadside. The beam range is 330m. This lighting mode is activated after two seconds at a vehicle speed of over 30mph.

### **MOTORWAY BEAM**

The projectors and modules create a cone of light with a raised beam, suitable for fast roads. Although similar to Country Beam, the modules create a more intense beam. The projectors and modules are raised slightly in order to increase range. The beam range is 370m. This lighting mode is activated after five seconds at a vehicle speed of 70mph.

## **HIGH BEAM**

This lighting mode can be activated at any time by the Automatic High Beam function, independently of the Adaptive Front System functions. It adapts automatically to the vehicle speed and angle of the steering wheel.

The power and range of the beam are set to maximum in order to effectively light up the length and breadth of the road. The modules are raised and positioned centrally, in line with the vehicle. At the same time, their range is increased. The beam range is 520m.

### ADVERSE WEATHER

This lighting mode is activated automatically at any time, when the wipers are activated. The beam is wider. The power of the modules is increased to enable the driver to see the white lines on the road more easily.

The intensity of the main beam is reduced in order to improve the driver's vision, taking into account possible reflections from the wet road. The beam range is 330m.

### **WELCOME LIGHTING**

### LOCKING/UNLOCKING

When the driver unlocks the vehicle using the plip or keyless access function, the vehicle initiates a "Welcome" sequence.

The headlights and modules give off a purple light, as if the car were waking up.

### **FOLLOW ME HOME**

The automatic 'Follow me Home' lighting function leaves the headlights illuminated for a short time after the vehicle is locked, in order to light a path for passengers at night.

### LOCATION

This lighting function allows you to activate the headlights and indicators to help you find your car, for instance in a 15 crowded car park.

### MARKER LIGHTS

When stopping at the road side, this lighting function makes sure other road users can see you clearly. The LED Daytime Running Lights and 3D rear lights are activated on the road side.

## **SCROLLING INDICATORS**

These distinctive, high-tech features underline the expressive looks of DS 7 CROSSBACK's light signature. They comprise a line of LEDs scrolling in segments towards the outside, in the direction of travel. They also include a onetouch activation function.

**BOOK A TEST DRIVE** 

# **NEW GENERATION OF DRIVING AIDS**

# **DS NIGHT VISION\***

Using the infrared camera in the radiator grille, DS NIGHT VISION\* improves visibility during the night.

This new technology is able to identify pedestrians and animals over 50cm tall up to a distance of 100m. Added to this, increased light intensity improves overall visibility up to 300m in front.

The digital instrument panel clearly displays the situation in front of the vehicle (in greyscale) for the driver. Hazards are highlighted in yellow, changing to red as they get closer.

This technology identifies pedestrians and animals on the road during the night.

All sources of danger which are in movement are over lined in red on the instrument cluster in order to warn and alert the driver about their presence.

DS 7 CROSSBACK is the first vehicle in the C-SUV segment to make this technology available.

# EXTENDED TRAFFIC SIGN RECOGNITION\*\*

This system recognises speed signs along with a number of other traffic signs and displays them on the instrument panel for the driver. This function contributes to enforcing the highway code as well as increasing safety. The signs recognised include Stop, One Way, No overtaking, End of no overtaking.

This system recognises speed signs along with a number of other traffic signs and displays them on the instrument panel.

One Way

No overtaking

Stop

End of no overtaking

# DS ACTIVE SCAN SUSPENSION

DS ACTIVE SCAN SUSPENSION\* analyses the road ahead and adjusts automatically, making DS 7 CROSSBACK able to handle imperfections in the road's surface with ease.

This innovative technology employs a camera placed behind the windscreen connected electronically to the front and rear axles. This works with four height sensors and three accelerometers to gauge DS 7 CROSSBACK's reactions such as speed, steering wheel angle and braking.

Data is transmitted in real time to an electronic control unit, which governs each wheel independently.

Based on this data, the control unit is continually making the suspension firmer or softer.

DS ACTIVE SCAN SUSPENSION uses swift reactions and finesse to improve comfort on the move and create a unique, smooth driving experience.

DS ACTIVE SCAN SUSPENSION is a world première: a DS innovation, available exclusively on DS 7 CROSSBACK

FIND A DEALER

This function is available between 8mph and 70mph and has three different modes:

- Sports
- Normal (this is the default mode)
- Comfort Camera

The DS ACTIVE SCAN SUSPENSION is linked to the DS SENSORIAL DRIVE option.

## **DS CONNECTED PILOT**

DS CONNECTED PILOT is a step closer to autonomous driving, but still allows you to retake full control of the car at any point. The innovative system regulates the speed and distance in relation to the vehicle in front, while the Stop & Go function allows DS 7 CROSSBACK to come to a complete stop, and set off again.

Lane Keeping Assist works in conjunction to position DS 7 CROSSBACK precisely in its lane by controlling the steering. This system is particularly well suited to motorways, provided that the white lines are clearly visible. While the driver must still remain focused on the road ahead, it makes for driving that's safer and less stressful.

The driver enters a reference speed in the Adaptive Cruise Control Stop & Go (from 20 mph), and activates the Lane Keeping Assist using a button on the right of the dashboard.

To remain active, the system requires the driver to keep his/her hands on the steering wheel, even without the need to steer.

The driver can take back control at any time by applying torque to the steering wheel (to cancel Lane Keeping Assist), pressing the button to deactivate the function or braking (cancels Active Cruise Control Stop & Go).

This system combines the new Adaptive Cruise Control Stop & Go and the Lane Keeping Assist (Part of the Premium Safety Pack) to manage driving in semi-autonomous mode, in specific conditions. The vehicle manages steering and speed.

DS 7 CROSSBACK is the first vehicle in the C-SUV segment to make this technology available.

<sup>\*</sup> Part of the DS NIGHT VISION Pack.

<sup>\*\*</sup> Part of the Advanced Safety Pack.

<sup>\*</sup> Availability depending on versions. Please refer to the specifications pages for more details

- Front wheel drive
- 225 hp combined
- Front electric motor
- 180 hp petrol engine
- BIK: from 11%

# **E-TENSE 4x4 300**

- 4 wheel drive
- 300 hp combined
- Front and rear electric motors
- 180 hp petrol engine
- BIK: from 11%

\* The electric range you achieve in real life conditions will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Only compare fuel consumption and CO2 figures with other cars tested to the same technical standard.

# **REGENERATIVE BRAKING**

For Braking Mode can be selected on the gear selector, meaning your vehicle will use a higher level of regenerative braking and slow-up faster when your foot is off the accelerator. Regenerative braking slows the vehicle while harnessing the kinetic energy back into the battery, thus helping to maximise range. Around town, the range can be increased up to 20% with regenerative braking.

# WHAT AFFECTS THE RANGE?

Driving style, driving speed, use of heating & air conditioning, acceleration or load are several factors that will affect the range of your car. Limiting the impact of the above factors will maximise range.

The predicted range gauge on our vehicles utilises recent driving history, as well as remaining battery charge and current driving conditions to estimate the range available.

**BOOK A TEST DRIVE** 

# **CHARGING**

DS 7 CROSSBACK E-TENSE comes with a domestic charging cable as standard, allowing you to charge from a standard UK 3-pin socket.

Install a home charging unit to access Accelerated charging at home. Accelerated charging cable: £200.

# point

To take advantage of Accelerated charging, order the optional Accelerated charging cable, and install a home charging unit at your home. Our approved charging partner Pod Point can assist with installation. They are fully approved under the government's Homecharge scheme, so if you have off-street parking, you could be eligible for a grant towards the cost of your charger. Speak to your DS Retailer about installing a home charging unit.

20,000+

charging points in the UK, and growing

# **MyDS APP**

# RANGE INFORMATION

With the MyDS smartphone app, you can see your car's current state of charge and approximate remaining range. When your car is plugged in, the speed and expected remaining charging time are also shown.

# REMOTE CHARGING

With control of remote charging you can use the MyDS app to commence charging or initiate a programmed charge. A programmed charge enables you to use the most beneficial energy rates to replenish your battery.

# **REMOTE AIR CONDITIONING**

This feature allows you to programme the heating or air conditioning of your car while it's still charging. Your car will be set to your preferred temperature when you get in, without diminishing the range available.

# **EQUIPMENT SPECIFICATION**

Option availability varies according to version/engine/trim level. Some options are only available as part of a pack. Please refer to the options section for further information.

# **DISCOVER MYDS APP**

# A MOBILE APP CONNECTED TO YOUR DS

A carefully designed App which lets you connect with your DS and its everyday surroundings, before, during or after driving it.

# **ENHANCE YOUR DRIVING EXPERIENCE**

MyDS App has been designed to allow you to connect to your DS, its environment, and the world of bespoke DS Only You services whenever you want. Each of the technologies available in your DS or smartphone will let you extend the driving experience before, during and after each journey.

### MANAGE YOUR JOURNEYS

MyDS App keeps a history of your journeys. It allows you to see how far you travelled, and how much you spent on fuel. It is the perfect solution for monitoring your fuel consumption, or claiming expenses if you drive for work.

### **LOCATE YOUR DS**

- MyDS App remembers where you parked your car.
- Whether you've parked in the city, or at a festival, you'll be able to find your DS with ease.

### SERVICING REMINDERS

- MyDS App will notify you when your next service is due.
- You can book your service directly from the app.

# STAY UP TO DATE

- Receive the latest news and offers from DS Automobiles.
- If you own more than one DS, you can manage multiple vehicles from the same app.
- Manage updates for your satellite navigation.

### **ACCESS TO DS ONLY YOU SERVICES**

MyDS App also allows you to access to exclusive DS Only You services:

- Find your local DS Store or Salon.
- Book your next service appointment. Choose to have DS collect and deliver your car, with DS Delivery Valet.
- Join DS Club Privilege, exclusive to owners of DS vehicles.
- Access exclusive events, discounts and unique experiences.
- DS at your service\* and DS Assistance phone number.
- Enjoy occasional vehicle rental with DS Rent\*.

# **SCAN MyDS APP**

Access your digital DS handbook with your smartphone with the Scan MyDS App.

- 1. Download the digital handbook on your smartphone.
- 2. Point your smartphone's camera at any part of your DS, and the Scan MyDS App will display the relevant information from your handbook.

\* Coming soon

# ONLY OUT

# MAKE THE CHOICE OF DS EXCELLENCE

Inspired by you and created for you, Only You is an exclusive programme offering services tailored to your personal needs. Enjoy a tailor-made programme for a unique DS experience.

Your Only You services are directly accessible via MyDS App, or by using the dedicated telephone number\*.

MyDS

0800 877 8455

Available Monday to Saturday 8am to 6pm. A DS representative will answer your questions and deal with your requests.

stCalls are free from a landline. For mobiles please refer to your service provider for charges.

TEL 0800 877 8455 MyDS APP

CONNECT TO EXCLUSIVE SERVICES

\* \* \*

# MyDS APP, THE KEY TO YOUR DS UNIVERSE

A driving partner that's always ready to help, MyDS App gives you direct access to the exclusive Only You services package and allows you to stay permanently connected to your DS. Compatible with all DS models.

**DRIVE WITH PEACE OF MIND** 

\* \* \*

### 3 YEARS OF FREE ASSISTANCE 24/7

To take the stress out of driving, DS goes the extra mile to make your life easier and ensure you are always mobile. Whether you have an accident, break down, lose your keys or put the wrong fuel in the tank, DS Assistance offers free 24/7 assistance in UK and abroad, available via the DS Connect Box button of your vehicle, on MyDS App or by calling 00 800 24 24 07 07.

ENTER A WORLD OF REFINEMENT

**\* \* \*** 

### PREFERENTIAL ACCESS TO NEW EXPERIENCES

To drive a DS is to enter a world of French excellence and refinement. For an unforgettable experience, DS has created the DS Club Privilege. To benefit from your five-year membership, simply register via MyDS App. Available directly on your smartphone, this exclusive world puts your desires centre stage.

### DISCOVER THE DS UNIVERSE THROUGH EXCLUSIVE AND ORIGINAL EVENTS AND ENJOY EXCLUSIVE BENEFITS:

Private events, exhibition previews, cooking lessons with a Michelin-starred chef or meetings with leading experts in French Savoir-Faire, and more. Private sales of gourmet food, excursions, shopping, and exceptional leisure activities.

TURN EACH TRIP INTO AN

**EXCLUSIVE EXPERIENCE** 

. . .

Continue the experience by renting a DS and

take advantage of your journeys to try a new vehicle from the DS range by booking directly

on your smartphone via MyDS App, in the DS

DS SHORT-TERM RENTAL

network or on DSrent.co.uk.

YOUR TIME IS OUR PRIORITY

◆ ◆ ◆

HAVE A VALET TAKE CARE OF YOUR VEHICLE

Time is what you have most precious. That's why DS has created the DS Valet experience especially for you.

During regular maintenance checks at one of our service centres or when purchasing a DS, this new service makes a personal car valet available for your daily trips.

DS SERVICE VALET: Pick-up and/or delivery of your DS for regular maintenance check.

DS DELIVERY VALET: Delivery of your new or used DS to the address of your choice and collection of your old vehicle. £195 OTR.

For more information about prices, please refer to the DS Only You section on MyDS App

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

 $^1$ Efficient Automatic Transmission with 8 speeds  $^+$  Please note: the maximum plated weights must not be exceeded.

\*The grouped figures shown above show the lowest and highest performing results for this model. Consult your dealer for information on specific examples. The fuel consumption you achieve, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO<sub>2</sub> figures. These CO<sub>2</sub> figures, however, a based on the outgoing test style NEDCeq (New European Driving Cycle Equivalent), calculated using a nE Co-tail using a new technical standard.

# DS CARE FOR CAR AND DRIVER

\*The delivery charge includes all miscellaneous charges, including the supply and fitment of registration plates etc.

### COMPREHENSIVE WARRANTY

# DS ASSISTANCE

Every new DS car offers the benefit of a three year warranty package, plus a 12 year anti-perforation<sup>2</sup> warranty and a three year paint warranty.

- Two years' unlimited mileage manufacturer's warranty. No-fee customer option of one year's Retailer provided warranty, only on cars sourced from DS AUTOMOBILES. Note: Retailer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles (excluding motorhomes and other converted vehicles).
- <sup>2</sup> Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a DS franchised Retailer every two years from its fourth anniversary.

In response to a free telephone call in the UK, DS Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for three years, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. You can also purchase additional DS Assistance via your local DS dealer at any time. DS Assistance applies to incidents covered by the new vehicle warranty, and non-vehicle faults, such as running out fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/ stolen, road traffic accidents and punctures / wheel changes.
