

All-New NEXO

Welcome to Hyundai. Welcome to Candoism.

Innovation is at the heart of what we do. We call it 'Candoism' and it keeps us focused on the future. Since launching our industry-leading 5 year unlimited mileage warranty, we've become one of the world's fastest growing car companies.

In 2016 we launched IONIQ – the only car available in Hybrid, Electric and Plug-in Hybrid options. 2017 saw us premiere the i30 N, an exciting dive into the world of high quality performance vehicles. In 2018 we introduced the KONA electric, the first fully-electric subcompact SUV in the European market. 2019 has seen the launch of NEXO, our latest innovation in the mass production of zero-emission Hydrogen Fuel Cell vehicles. We've also revolutionised the buying experience with Click to Buy – our clever website which allows you to buy your next Hyundai from the comfort of your sofa. We're proud of what we've achieved in a short space of time.

So what happens next? The answer is inspired by you, our customers, because our next innovation will happen with you in mind. For us 'done' will never be 'done' – we're always excited to start again. Welcome to Candoism. Welcome to Hyundai.

Styled for the future.

NEXO's fluidic design reflects its ambitious nature. With streamlined curves and a futuristic profile, its style sets a benchmark for the future.

Auto Flush Door Handles

Rear Combination Lights - LED

Headlights - Full LED

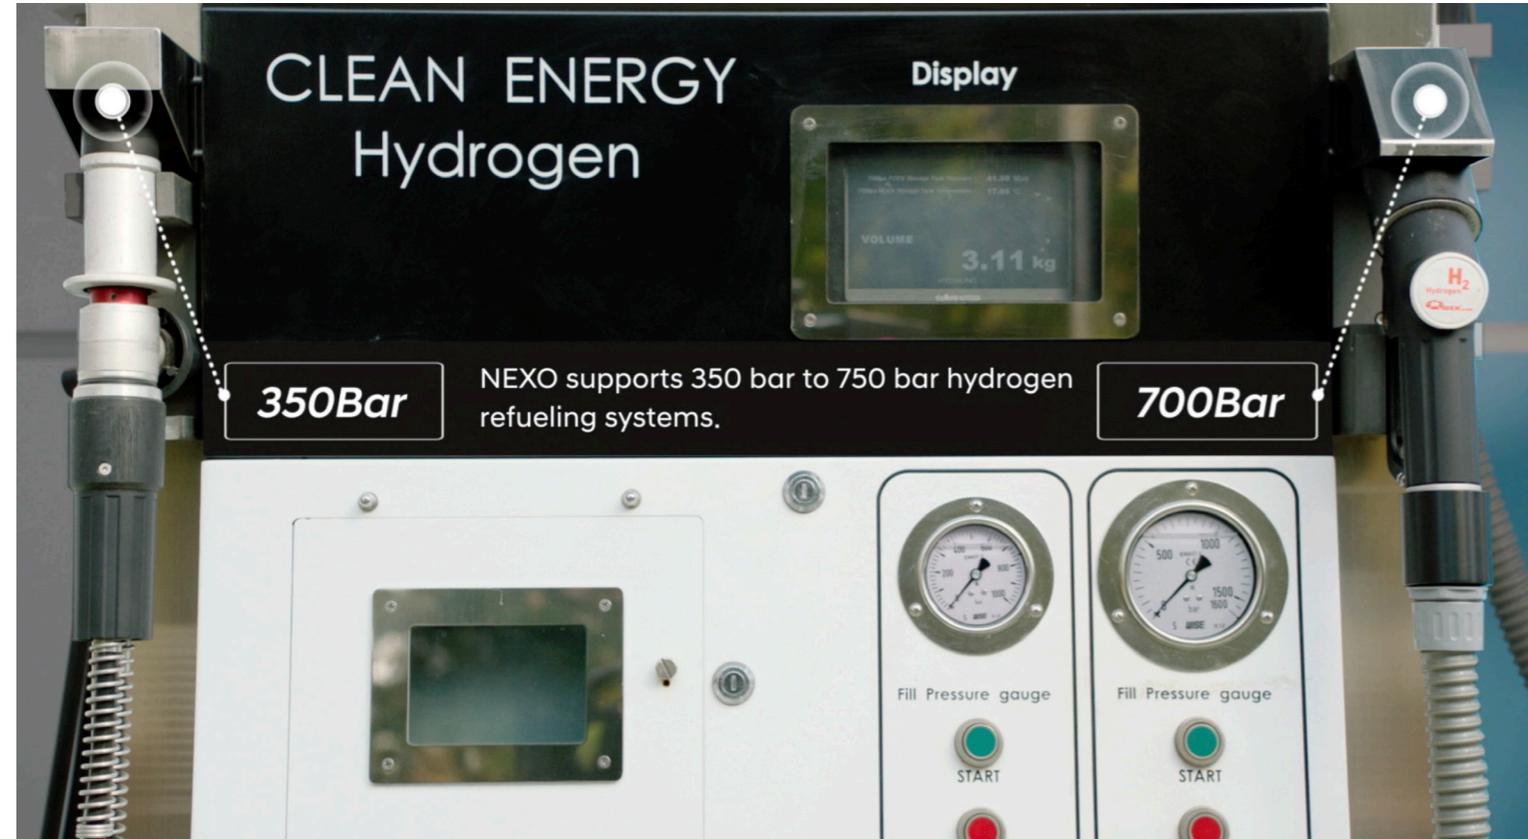

D-Pillar Air Tunnel

A cascading grille and daytime running lights make a powerful first impression, enhanced further by triangular headlamps which highlight its progressive character. A thin line of light runs along the top of the cascading grille, emphasising its elegant, horizontal front layout - inspired by the light above the horizon at dawn. Thoughtful detailing, including streamlined auto-flushed door handles that sink back into the car, give it a sense of flow from back to front. Its style is designed to complement its advanced technologies and innovative features. The NEXO manages to make a visual impact, without making an environmental one. It's ahead of its time in more ways than one.

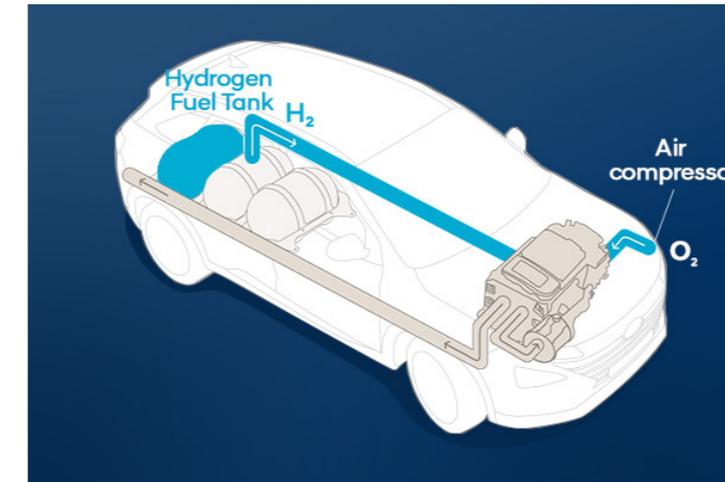

A true pioneer of its time.

We're committed to a cleaner tomorrow. Using intelligent and efficient hydrogen fuel cell technology, NEXO only emits pure water.

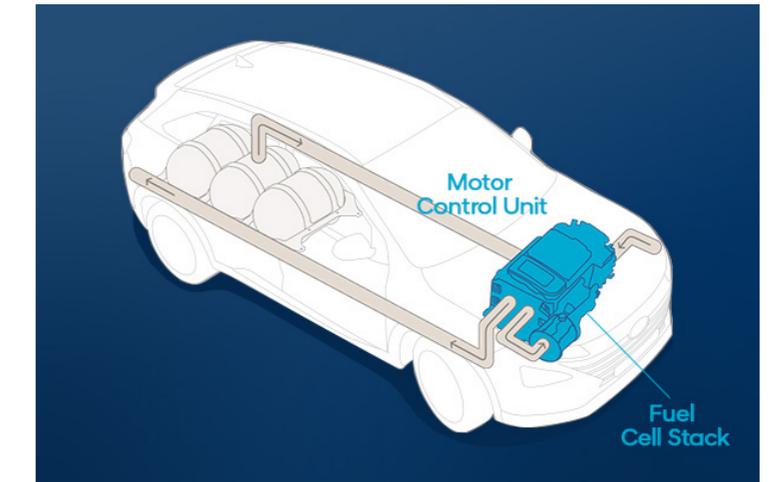

NEXO is a hydrogen fuel cell vehicle, making it first and foremost an electric vehicle. Refuelling is quick and easy. It only takes five minutes and provides you with an electric range of up to 414 miles (WLTP). It produces its own electricity in the fuel cell stack by mixing ambient air with compressed hydrogen stored in high pressured tanks. The process is very clean, not only does NEXO feature an efficient and durable air-filtering system that captures micro particulates, but the only by-product of the reaction is water. The result is better air quality and zero CO2 emissions, making it one of the world's most advanced road vehicles. Welcome to the future of driving.

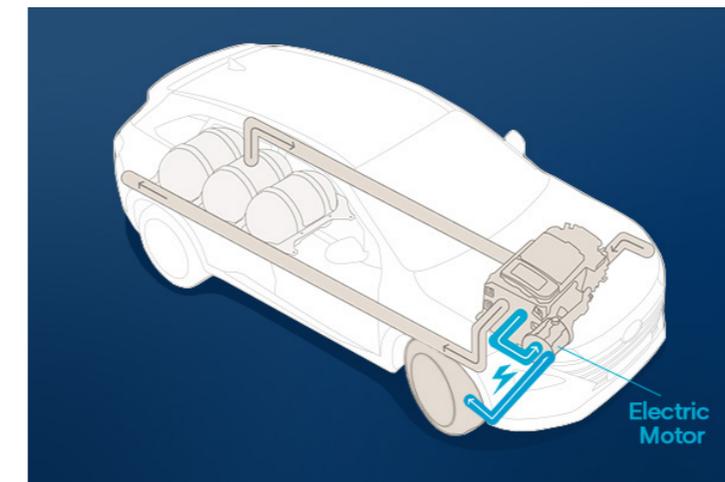

How does it work?

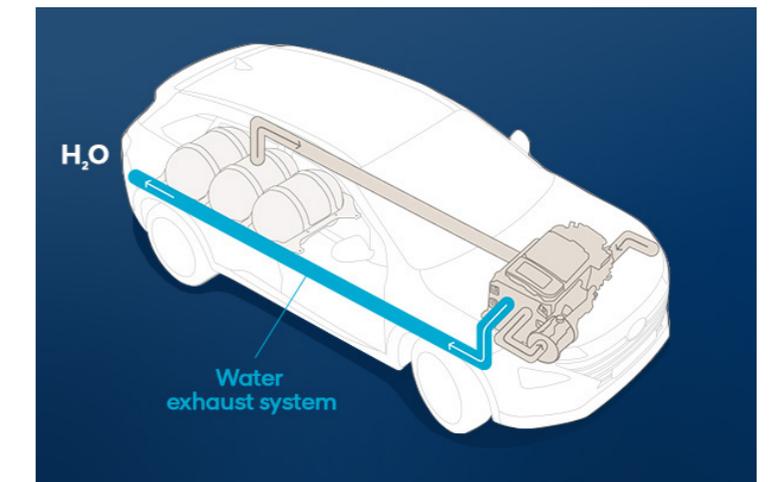

Hydrogen from the fuel tank is fed to the fuel cell stack, where it is mixed with clean, compressed air.

The Hydrogen reacts with Oxygen in the fuel cells, generating electricity and water.

The electricity is supplied to the electric motor and to the high voltage battery to power the vehicle.

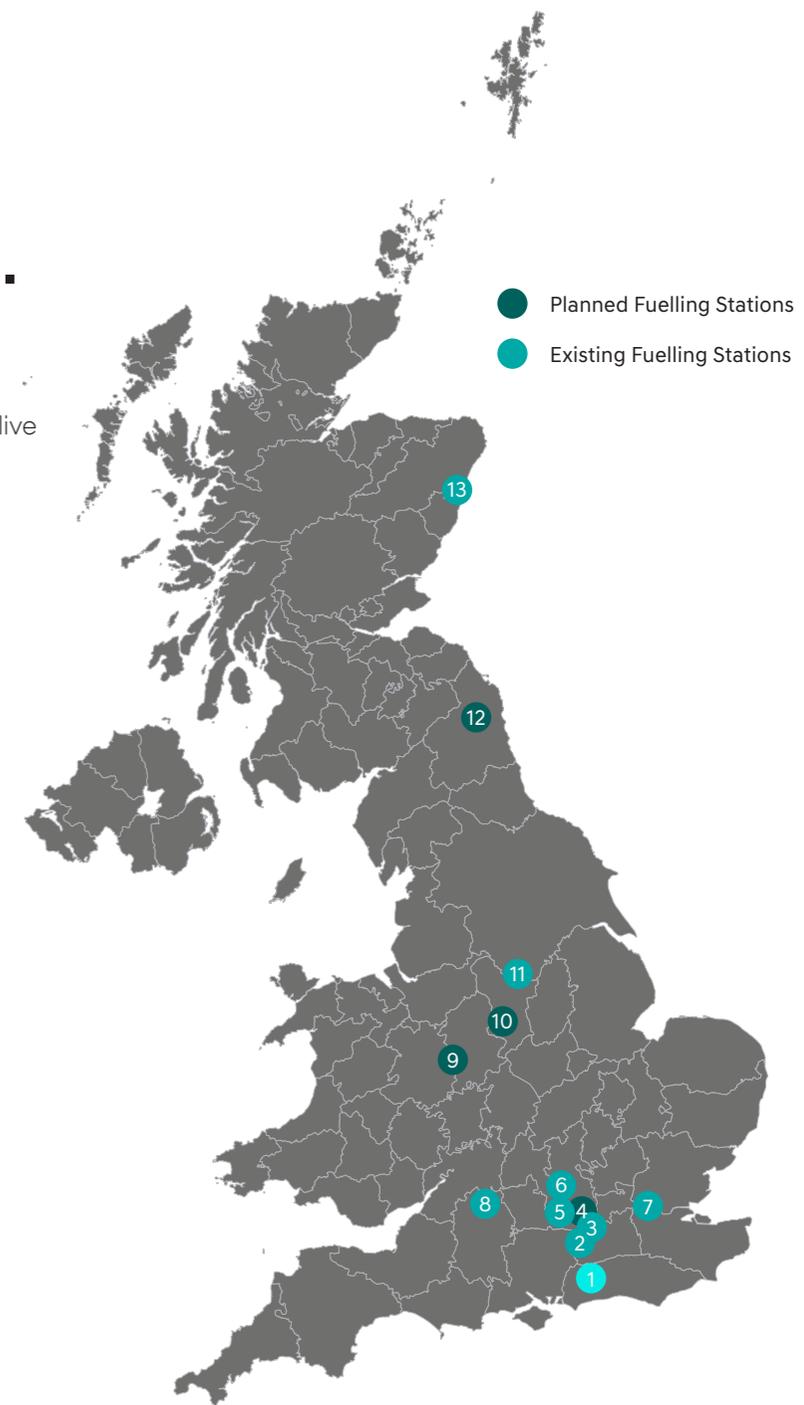

Pure water - the only by-product of the process - is expelled.

Hydrogen Refuelling Stations.

Refuelling your NEXO is quick and easy. The UK Hydrogen Fuelling infrastructure is growing, please visit the NEXO page on the Hyundai website for updates. Please visit www.hyundai.co.uk/new-cars/nexo for live information on fuelling stations.

- 1 Shell Gatwick North, Longbridge Way, Sussex (2019).
- 2 Shell Cobham, Cobham Services (M25).
- 3 National Physical Laboratory (NPL), Teddington, London.
- 4 London.
- 5 Heathrow, Hatton Cross.
- 6 Shell Beaconsfield - Beaconsfield Services (M40).
- 7 Centre for Engineering and Manufacturing Excellence (CEME) Rainham, London.
- 8 Johnson Matthey Fuel Cells, Great Western Way, Swindon.
- 9 Tyseley Energy Park, Hay Mills, Birmingham - To be opened in 2019/2020.
- 10 South Derbyshire, Derbyshire - To be opened in 2019/2020.
- 11 Advanced Manufacturing Park (AMP), Rotherham.
- 12 Tees Valley - To be opened 2020/2021.
- 13 Hydrogen Centre, Kittybrewster, Aberdeen.

A high-tech interior with futuristic features.

NEXO's well-appointed interior has been crafted to ensure everything is at your fingertips.

Paddle Shift (Regenerative Braking Control)

Integrated Driver Information System Controller

KRELL Premium Sound

Wireless Phone Charging Pad

The 12.3" touchscreen - with improved brightness and touch response - is home to NEXO's media centre and satellite navigation. NEXO is future-ready, with Bluetooth and voice recognition for effortless control of in-car entertainment and Smartphone streaming from Apple CarPlay™ and Android Auto™. KRELL ambient speakers and a hidden subwoofer fill NEXO with sound, and a wireless charging pad keeps your phone charged when you're on the move.

Advanced technologies to keep you safe.

When it comes to safety, we're thinking far beyond today. NEXO has been fitted with cutting edge safety innovations, because you and your passengers are our first priority. This attention to safety has been recognised as outstanding by Euro NCAP, with the NEXO being awarded Best in Class Winner 2018.

Forward Collision-Avoidance Assist (FCA): Front view camera and front radar are in place to warn the driver of imminent collisions with other vehicles, or even certain types of objects; and if necessary apply emergency braking to prevent collision.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA): Radar sensors in the rear bumper monitor cross traffic approaching from left and right side of the vehicle during reverse manoeuvres, and if necessary apply emergency braking to prevent collision.

Blind-Spot Collision-Avoidance Assist (BCA): Radar sensors in the rear bumper are used to warn you of approaching vehicles in the blind spot area and activate the brakes when there is a collision risk in lane-changing manoeuvres. Thanks to these forward-thinking technologies, you'll drive with total peace of mind.

Remote Smart Parking Assist: Use the RSPA feature to automatically enter or exit a space. Choose to stay in the car while NEXO completes the manoeuvre, or get out and use the key fob to complete it remotely. When you return, avoid squeezing in by using the key fob to exit its space. NEXO does the hard work for you.

19" Alloy Wheels

NEXO offers the following key features as standard:

- 12.3" Touchscreen Satellite Navigation and Media Centre
- 19" Alloy Wheels
- Alarm – Thatcham Category 1
- Autonomous Emergency Braking (AEB) with Forward Collision Warning System (FCWS)
- Blind Spot View Monitor
- Cruise Control – Smart Adaptive Speed Control with Stop & Go Function
- Front Seats – Heated & Ventilated
- Headlights – Full LED
- Heated Steering Wheel
- Lane Departure Warning (LDW) System with Lane Keep Assist (LKA)
- Phone Connection – Android Auto™/Apple CarPlay™
- Positioning Lights – LED
- Rear Seats (Outer) – Heated
- Remote Smart Parking Assist
- Speakers – KRELL Audio – 8 Speaker System including External Amplifier and Subwoofer
- Speed Limit Information Function (SLIF)

Available in Greige Two-tone Trim. Not to UK specification.

* Kerb Weight defined as the total weight of a vehicle with standard equipment and all necessary operating consumables such as coolant, air conditioning refrigerant and a full tank of fuel, while not loaded with either driver, passengers or cargo.

† Payload is the difference between the Gross Vehicle Weight and the Kerb Weight.

‡ Gross Vehicle Weight is the maximum allowable weight of the vehicle, fully loaded with passengers and cargo (The Payload) and includes the weight of the vehicle.

** The Gross Train Weight is the weight of the fully loaded vehicle plus a fully loaded trailer and must not be exceeded.

†† Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including accessories fitted (post registration), variations in weather, driving styles and vehicle load.

‡‡ g/km = grams of emitted substance per kilometre travelled. CO₂ = Carbon Dioxide.
