# YOUR OWN RECHARGE PURE ELECTRIC IS IN REACH

We are recharging everything we do, from our cars to our factories and supply chain. Our ambition is to reduce our carbon footprint by 40% per car by 2025 compared to 2018. And to be climate neutral by 2040. Because we have only one planet.

We introduce Volvo Recharge – our new line of advanced electric cars, designed to give you a refined and more sustainable driving experience. The cars you trust to protect your family, now also help protect their future.

The XC40 Recharge doesn't force you to choose between power and responsible driving. Just take your seat, select a gear and enjoy the comfort of one pedal drive and the impressive strength of electric motors with zero tailpipe emissions.

With Google Maps fully integrated in the car and hands-free voice control enabled by Google Assistant, real-time traffic info and automatic rerouting let you reach your destination with less hassle.

Talk to Google in your XC40 Recharge for hands-free control. Through a familiar interface, you can enjoy entertainment and keep in touch with friends, family and colleagues – just by using your voice. With access to apps on Google Play, you, your car and your life have never been closer.
