

ALL NEW
HIGHLANDER

GO BIG. GO HYBRID.

What if it's possible to have it all? The all new Toyota Highlander is a Hybrid that offers the best of both worlds. It has the power to cruise at speed on long motorway road trips, but low CO₂ emissions for inner-city traffic. It handles outstandingly, performing equally well on steep mountain climbs as urban commutes. Its streamlined design makes a serious style statement, while a luxurious interior comfortably fits the whole family – with adaptable storage space for any luggage requirements. Imagine a car without compromise. Imagine the all new Toyota Highlander Hybrid.

FOR EVERY DRIVE. FOR EVERY DRIVER.

The world is changing fast. So is the way we travel. The all new Toyota Highlander embodies this adaptable spirit, thanks to the options its 2.5-litre Petrol Hybrid engine gives. Choose how you drive with NORMAL, ECO and SPORT modes, all with their own performance personality to suit you. The all new Highlander Hybrid goes above and beyond its class, allowing you to customise and maximise the efficiency of your drive.

Whichever mode you choose, you'll find acceleration, power and responsiveness, as well as a quiet and comfortable ride.

DRIVE EFFICIENTLY. DRIVE YOUR WAY.

Life is a journey of constant discovery. Whether your adventure is planned or spontaneous, the all new Toyota Highlander is the ultimate companion. The open road is there to be conquered, and so too is trickier terrain. The 2.5-litre Petrol Hybrid engine is powerful enough to pull a 2T trailer and is combined with an AWD-i system that automatically kicks into action whenever needed – from pulling away from a stationary position to navigating low-grip conditions such as ice and snow. By engaging an additional rear electric motor independent to the main one, it distributes additional driving force to the rear wheels, suppressing front wheel slip. It even works to reduce understeer, helping the all new Highlander glide confidently around corners.

DRIVE IN STYLE. DRIVE IN COMFORT.

True craftsmanship is about details; little touches that make a big difference. Inside the all new Toyota Highlander that means luxurious leather seats, the height of comfort, with built-in heating and cooling* functionality to ensure driver and passengers are always comfortable. For the driver, the elevated seating position gives a view of the whole road. The impressive 8" multimedia display shows everything you could possibly need, from navigation to your favourite playlist, all easily readable while driving. As the day draws to a close, ambient blue LED lighting illuminates the interior so that everything you need is visible and at your fingertips. It's the perfect blend of style and substance.

* Air ventilated seats only available on Excel Premium.

8" multimedia display

With Apple CarPlay™ and Android Auto™ as standard, connecting your phone is easy. You'll always be in control of what's next – all accessible via the 8" multimedia touchscreen.

Wireless phone charging

With a wireless charging pad in the centre console, all you need to do is place your smartphone down to regenerate its battery while you drive.

MyT Connectivity

Hybrid Coaching helps you optimise your EV driving, while speed camera warnings look out for you. Connect your phone to enjoy apps directly via the all new Highlander's infotainment screen.

CONNECTED WORLD. CONNECTED DRIVING.

Innovation moves our world forward. The all new Toyota Highlander is full of technology that not only improves your driving experience, but integrates with everyday life too. Simply connect your Apple or Android phone, then control everything from calls to your favourite playlists and navigation via the 8" touchscreen. Take driving to the next level with the MyT app, which coaches your hybrid driving and offers insights to help you improve. It even helps you find where you parked. With the all new Toyota Highlander, you have everything you need to power your next adventure.

Head Up Display* and multi-information screen

Display useful information using the Highlander's Head Up Display*, from speed to turn-by-turn navigation and EV driving range. You'll never need to take your eyes off the road.

* Only available on Excel Premium.

Smart rear-view mirror*

Real-time images from a high-definition camera mounted high on the back window ensure an unobstructed view even when your boot is packed to the roof.

SPACE FOR SEVEN. SPACE FOR LIFE.

Any journey is as much about the company you keep as the places you visit. Keeping everyone happy naturally makes the experience all the better. The all new Toyota Highlander carries up to seven people in comfort and style, with generous legroom wherever they sit and an incredible panoramic roof that grants views and a spacious feeling for all. With triple-zone automatic air conditioning, temperature can be operated in driver, passenger and rear zones, ensuring all passengers will be as warm or cool as they would like to be. In the front and second rows*, heated seats grant even more control. Individual storage spaces and USB charging points will keep everyone entertained throughout the journey.

* Only available on Excel Premium.

ADAPTABLE SPACE. FOR ALL YOUR NEEDS.

Space on demand

Whatever your needs, wherever you're going, Highlander offers a variety of seating configurations.

7 seats 332* litres

5 seats 865* litres

2 seats 1909* litres

The all new Toyota Highlander's interior can adapt to whatever you need to carry. If seven people are in the car, a 332-litre boot provides ample room for everyone's belongings. Fold down the back row, and that expands to 1909 litres. Fold down the second row, and the result is an astonishing 865 litres of storage. After sensing your Smart Key, the large rear doors open automatically when you wave your foot under the bumper. The panoramic glass roof with powered retractable sunshade allows you to let as much or little natural light in as you like.

* Up to roof, including under deck storage space.

SAFETY INNOVATIONS. FOR EVERY EVENTUALITY.

Pre-Collision System enhanced with Emergency Steering Assist

The advanced Pre-Collision System uses both automatic braking and steering assistance to reduce the likelihood and severity of an impact.

Lane Trace Assist (LTA)

If the car begins to drift from the centre of the lane unintentionally, steering assist is applied to correct its course.

Blind Spot Monitor (BSM)

Alerts the driver to any vehicles that might be missed in the side-view mirrors.

Rear Cross Traffic Alert with Automatic Braking (RCTA-B)

When you back out of a parking space, rear-mounted sensors identify vehicles approaching from the left or right, or stationary objects. Warnings are given and the brakes applied to avoid a collision.

Safety is Toyota's top priority, and the all new Highlander features the latest technology to minimise risk. Toyota Safety Sense 2.5 includes a Pre-Collision System with day and night-time Pedestrian detection, and Cyclist Detection to keep other road users safe. Intersection Turn Assist detects pedestrians and vehicles at junctions, braking automatically to prevent accidents. Lane Trace Assist and Lane Departure Alert with Steering Control keep you on track, while Road Sign Assist displays useful information on the 7" multi-information display so you can keep your eyes forward.

Front and rear parking assist with automated braking make easing into tight spaces a simple task, while a 360° Panoramic View Monitor helps make parking and manoeuvring safer and easier.

Intelligent Adaptive Cruise Control, comprised of Full Range Adaptive Cruise Control and Road Sign Assist, adapts cruising speed to match speed indicated by traffic signs.

All models and grades are certified according to the World Harmonised Light Vehicle Test Procedure (WLTP), which replaces the New European Driving Cycle test procedure (NEDC).

All CO₂ figures quoted are NEDC equivalent. This means the CO₂ figures are based on the new WLTP test procedure but calculated (using a standard European calculation method) to allow comparison with the NEDC test procedure. The NEDC equivalent figures will be used to calculate vehicle tax on first registration. All mpg figures quoted are full WLTP figures.

More information can be found by visiting: www.vehicle-certification-agency.gov.uk/fcb/wltp.asp.

The official CO₂ figures for vehicles changed as from 6 April 2020, due to a change in the official method of calculation. CO₂ figures are used in the calculation of Vehicle Excise Duty (car tax) for new cars during their first year of registration. As a result, all CO₂ figures, car tax and recommended 'on the road' prices for new vehicles are subject to change for vehicles registered after 6 April 2020. Please contact your local Toyota Centre for further information.
