

⤴ **CITROËN**

**NEW  
CITROËN È-BERLINGO VAN ELECTRIC  
AND CITROËN BERLINGO VAN**

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the

Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

## 1951

Innovative, light, tough and economical, the 2CV Fourgonette has always been a much-loved classic. Between 1951 and 1978 over 1.2 million were made, and they remain highly collectable today.

## 2020

Citroën launches ë-Dispatch electric, featuring a useful range of up to 211 miles (WLTP) and the ability to charge up to 80% in just 30 minutes when using a public rapid charger.

### 1934

Citroën revolutionises the automotive landscape with the Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

### 1939

Citroën launches the 'TUB', a supremely practical modern design with a sliding side door: its successor is the famous Type H, above, launched in 1948.

### 1948

The much-loved 2CV is created as a "safe and economical vehicle, able to carry four people on-board and 50 kg of luggage". More than five million are made.

### 1955

Unveiled to a stunned public at the 1955 Paris Motor Show, the DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertone, earns it the nickname 'flying saucer'.

### 1968

It's a golden age for light and agile vehicles like the Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

### 1970

The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this hatchback will go on to sell around 2.5 million units.

Discover the models that make up Citroën's extraordinary history, from 1919 to the present day.

# COMMERCIAL VEHICLE RANGE

From the busy city centre to the open road, Citroën vans have been designed from the ground up to ensure every trip is comfortable and stress-free. There's now also the choice of 100% electric across the entire van range.

# POWERTRAINS

## ELECTRIC, PETROL OR DIESEL

New Citroën ë-Berlingo Van Electric and Citroën Berlingo Van both provide identical modularity, interior space and load capacity. Enjoy the additional comfort of near-silent driving with New Citroën ë-Berlingo Van Electric, as well as free access to city centres that have congestion charges in place. New ë-Berlingo Van Electric is also just as suited for journeys outside of the city, thanks to a range of up to 171 miles.\*

GEARBOX AVAILABLE

FROM 144 G  
OF CO<sub>2</sub>/KM\*\*\*

FROM 54.3 MPG  
(WLTP COMBINED CYCLE)

\* WLTP standard combined cycle. Range of 165 – 171 miles, dependent on use and driving style. \*\*The vehicle will rapid charge at a rate of up to 100kW, depending on the power of the rapid charging station used and will take longer to charge at a lower power. Between 15-80% of the vehicle's charge in 30 minutes from a 100kW charger.

\*\*\*The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors: (including but not limited to) the accessories fitted (pre and post registration), variations in weather, driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures.

# ELECTRIC

New Citroën ë-Berlingo Van Electric adds to the standard levels of comfort of Berlingo Van, with the addition of a near-silent driving experience. Plus, instantly available torque ensures smooth acceleration, with no sudden jolts or vibrations whilst driving. The electric motor provides a power output of 100kW (the equivalent of 136 hp) at speeds up to 84 mph, where permitted.

Choose from three driving modes: 'Eco' optimises energy consumption by limiting overall power and energy consumption; 'Normal' works out the best balance between range and dynamic performance; 'Power' helps maintain the vehicle's performance when fully loaded.

On the centre console, there's an easy-to-use ë-Toggle, just selects Drive, Neutral or Reverse.

In addition, Brake Mode uses clever regenerative braking technology to recoup energy back into the battery, energy usually lost during braking or deceleration, further extending the range.

**8 YEARS OR 100,000 MILES BATTERY WARRANTY FOR 70% OF ITS ORIGINAL CHARGE CAPACITY**

# PETROL OR DIESEL

With Citroën Berlingo Van, choose from efficient PureTech petrol or BlueHDi diesel engines. Both powertrain options are flexible and perfectly suited to any requirement - from stop-start city centre driving to those longer motorway journeys. For additional driving comfort, there's also an optional, latest-generation 8-speed EAT8 automatic gearbox\* featuring steering wheel gearshift paddles.

*\*Optional on selected engines.*

# STYLE

New Berlingo Van stands out and is instantly recognisable as a Citroën commercial vehicle with its vertically angled windscreen and protective and robust front end design. Its wide sliding doors immediately demonstrate its unrivalled practicality. The rear design continues this functional character and 'van spirit' with bright, vertical rear lights.

— AVAILABLE IN 100% ELECTRIC —

*This image of Driver Pro does not fully reflect the UK specification. The UK specification of Driver Pro comes with the Look Pack as standard which includes body coloured rear bumper, side rubbing strips and exterior door handles.*

# WORKER PRO VERSION

The Worker Pro version is designed for professionals who transport equipment and colleagues to all types of worksites. It benefits from the three seat modular Extenso® cab and optimised traction thanks to Grip Control with Hill Descent Assist. Robustness is also one of its strong points. Large wheels, raised ground clearance and a protective plate under the engine. In the load area, features include handy load securing rings, a plastic protective covering and enhanced lighting throughout.

# ENTERPRISE PRO VERSION

Enterprise Pro versions of Citroën Berlingo Van are perfect for professionals who require exceptional load carrying capability combined with advanced specification. Available in Panel Van as well as a Crew Van, all Enterprise Pro versions come with: air conditioning; cruise control with variable speed limiter; Extenso® cab; 8" colour touchscreen and Apple CarPlay® & Android Auto™ as standard.

— AVAILABLE IN 100% ELECTRIC —

# DRIVER PRO VERSION

Designed for professionals who tend to make longer journeys or numerous deliveries in cities and towns, the Driver Pro version focuses on real comfort. The driver's seat provides lumbar adjustment, acoustic enhancements reduce exterior noise to a minimum and there are plenty of innovative driving assistance systems. Including the all-new Surround Rear Vision system, an electric parking brake, cruise control, My Citroën Drive with DAB radio, multi-function steering wheel and voice recognition are just a few highlights.

*The image of Driver Pro does not fully reflect UK specification. The UK specification of Driver Pro comes with the Look Pack as standard which includes body coloured rear bumper, side rubbing strips and exterior door handles.*

— AVAILABLE IN 100% ELECTRIC —

**SLIDING  
SIDE DOORS**

Citroën Berlingo Van is available with one or two sliding side doors to make loading and unloading considerably easier, no matter where the vehicle is parked. Each sliding side door is 675 mm wide and 1072 mm high to accommodate large packages.

**TWO LENGTHS**

Citroën Berlingo Van is available in two body lengths: a standard Size M version at 4.40 m long and an extended Size XL version at 4.75 m. Simply choose the length best suited to your trade and your needs.

..... **M 4.40 m** .....

..... **XL 4.75 m** .....

 **AVAILABLE IN 100% ELECTRIC**

# EXCEPTIONAL LOAD VOLUME

## PAYLOAD OF UP TO 1000 KG

Citroën Berlingo Van offers load volume between 3.30 m<sup>3</sup> and 4.40 m<sup>3</sup> (with Extenso<sup>®</sup> cab), depending on whether you choose the M or XL version. Maximum payload ranges from 800 kg to 1000 kg. At the rear, 60/40 split rear doors open to a full 180 degrees for easy access and loading and the width between rear wheel arches ensures that you can carry up to two Euro pallets. As an intelligent option, you can also specify an Overload Indicator, a useful feature that warns you if the total payload has been exceeded.

OVERLOAD INDICATOR

LOADING PACK

LOAD SECURING RINGS

ENHANCED LED LIGHTING

## DESIGNED TO MAKE YOUR DAY EASIER

Long objects are no problem, thanks to the opening load flap behind the side passenger seat in Extenso<sup>®</sup> cab versions. For ultimate versatility, Citroën Berlingo Van can be fitted with the Loading Pack, which includes enhanced LED lighting, 12V socket, and four extra load securing rings halfway up the load space, complementing the six rings already fitted to the floor as standard. Safe, secure loads are assured.

BERLINGO VAN	E-BERLINGO VAN		
 UP TO <b>1000 kg</b>	 UP TO <b>800 kg</b>	 UP TO <b>4.40 m<sup>3</sup></b>	 <b>1.24 m</b>
 UP TO <b>1.2 t</b>	 UP TO <b>750 kg</b>	 UP TO <b>3.44 m</b>	 <b>2 EURO PALETTES</b>

 AVAILABLE IN 100% ELECTRIC

# EXTENSO<sup>®</sup> CAB

## THREE SEATS PLUS FLEXIBILITY

The modular Extenso<sup>®</sup> cab adapts to your needs. For instance, the side passenger seat base can be lifted to accommodate longer objects from the rear up to 3.09 metres long in the M version, and 3.44 m in XL.

- 1 – The Extenso<sup>®</sup> cab features three seats, ideal for when you need to carry two extra passengers.
- 2 – The central seatback can be folded down to create a mobile office, complete with a pivoting table for when you need to work on the go.

3 – Fold the side passenger seat up and you'll find an additional space that's ideal for transporting fragile loads in the footwell area. This also increases load volume to 3.80 m<sup>3</sup> in M models, and 4.40 m<sup>3</sup> in XL versions.

The Extenso<sup>®</sup> cab also features a clever storage space under the central seat that can be securely padlocked.

 AVAILABLE IN 100% ELECTRIC

# THE CITROËN BERLINGO CREW VAN

## COMFORT FOR UP TO FIVE

The modular and spacious Crew Van is ideal for larger teams and can seat up to five.

- 1 – Available in XL size, the 2nd row of seats provides class leading comfort and legroom.
- 2 – Crew Van can accommodate longer loads when folding down the 2nd-row side and front passenger seats.
- 3 – For the maximum amount of load space, you can fold flat the 2nd row seats and then slide the mesh bulkhead against the front seats. A handy access flap in the bulkhead increases the load length further when the front passenger seat is folded.

*\* Please note that glazed doors in the second row are not offered as standard or an option on the Berlingo Van Crew Van due to the impact that having glazed doors may have on the tax status of the vehicle. Please check with your local HM Revenue & Customs office for further details.*

AVAILABLE IN 100% ELECTRIC 

# WELL-BEING

## ALL ROUND RELAXATION

The CITROËN ADVANCED COMFORT® programme delivers innovative, technological and intelligent solutions for the body and mind. Soft-touch materials and low noise levels create a sense of calm, while the interior has been designed to be both simple and versatile throughout. The overall ambience makes every journey feel effortless and intuitive technology ensures the driving experience is easy and serene.

**FILTER**

TO USE

# ON-BOARD COMFORT

## RELAX AT WORK

When spending any amount of time in the Citroën Berlingo Van, you'll quickly appreciate its relaxed, comfortable ride on all surfaces. Thanks in part to a high driving position, refined suspension and well-insulated interior. Inside, well designed, generously sized seats also contribute to the overall comfort and offer height and lumbar adjustment.

— AVAILABLE IN 100% ELECTRIC — 

Top Box

Wireless charging

220V socket

# THE MOBILE OFFICE\*

## TOP BOX, 220V SOCKET, WIRELESS CHARGING

Inside the Citroën Berlingo Van, you'll find a ready-made everyday workspace. Your mobile office features a secure Top Box for safely storing away laptops or tablet devices, as well as an optional 220V socket to keep them topped up on the go. There is also a USB port and a 12V socket. As part of the Extenso® cab, working on the move is easier still thanks to the pivoting writing table, which you can use simply by folding down the central seatback.

\* Dependent on version.

AVAILABLE IN 100% ELECTRIC

A man with a beard and short hair is driving a Citroën Berlingo Van. He is wearing a green patterned sweater and is looking forward with a slight smile. The car's interior is visible, featuring a large central touchscreen displaying a navigation map, a digital instrument cluster, and a head-up display showing a speed limit of 40 km/h. A rearview mirror with a camera feed is mounted above the dashboard. The background shows a blurred road and greenery, indicating the car is in motion.

# PEACE OF MIND

Citroën Berlingo Van features up to 17 driving assistance systems\*, from Lane Departure Warning systems to Keyless Entry and Start. Every advanced feature ensure driving is as easy and stress-free as possible.

*\* Depending on version. As a result of the global shortage of electronic components, some equipment may be temporarily unavailable. Head-Up Display is not available within the UK range.*

# SURROUND REAR VISION

Transforming visibility as you drive and during manoeuvres, the Surround Rear Vision system is an innovation you'll appreciate every day. With a 5" colour screen placed in the rearview mirror location, the system uses two cameras to give you three different views of your immediate surroundings in real-time.

- 1 – A clear view of your surroundings behind the vehicle whilst driving.
- 2 – Images of the passenger side surroundings to eliminate the blind spot on your left-hand side.
- 3 – The reversing camera to see the area behind you whilst manoeuvring in reverse gear.

*Head-Up Display is not available within the UK range.*

⊘ CAN BE DEACTIVATED

⊘ CAN BE DEACTIVATED

## AUTOMATIC ELECTRIC PARKING BRAKE\*

The Electronic Parking Brake works automatically when the engine is switched off and releases when you move away. It can be used manually using the control lever.

## AUTOMATIC SMART BEAM HEADLIGHTS

Seamlessly switching between main and dipped beam when other vehicles are detected, this feature makes safe night driving more relaxing.

## FRONT, REAR AND SIDE PARKING SENSORS\*

This all-round system informs you about obstacles using visual markers on the 8" touch screen and an audible alert.

## TRAILER STABILITY CONTROL

On vehicles fitted with a tow bar, Trailer Stability Control works with the ESP to stabilise your trailer if any swaying is detected.

## KEYLESS ENTRY AND START\*

Now you can lock, unlock and start up without having to get your key out. The vehicle recognises you as you approach.

## HILL START ASSIST

Designed to prevent you from rolling back when releasing the brake pedal on steep slopes, Hill Start Assist works on gradients over 3%. The system holds your vehicle for about two seconds, so you can move smoothly from brake pedal to accelerator.

## REVERSING CAMERA\*

Everyday parking manoeuvres are transformed, with clear visual assistance. The moment you select reverse, the 8" touch screen displays the view behind you, complete with visual guides.

## OVERLOAD INDICATOR\*

An exclusive innovation, the Overload Indicator warns you if your vehicle's payload is exceeded.

\* Optional according to version.

# ELECTRIC POWER: SIMPLE TO USE

Hover your mouse cursor over the image to find out more 

New Citroën ë-Berlingo Van electric is simple to charge at home and out on the road. Three types of battery charging are possible, accompanied by a complete range of practical services such as preconditioning of the interior temperature and deferred charging. The electric charging flap is located at the rear of the vehicle on the left-hand side and incorporates an LED light sequence that shows the current stage of charging or when deferred charging is selected.

# ELECTRIC INFORMATION AT YOUR FINGERTIPS

New Citroën ë-Berlingo Van electric has been designed with a singular priority in mind: to ensure living with an electric van is simple. The driver's display, situated behind the steering wheel, displays the battery charge status and the power consumption of onboard electrical equipment such as heating and air conditioning.

In addition, the central 8" touchscreen also provides a range of information in the Energy section. This section includes a range of tabs to choose from: current energy flow, battery charge level, consumption statistics and details of deferred charging.

*Due to the global electronic components shortage the 10" Fully Digital Driver's display may not be available.*

# CHARGING OPTIONS

There are a number of flexible charging options for your New Citroën ë-Berlingo Van Electric. Charging via a Wall Box or a Rapid Charging terminal are amongst the most rapid.

A Wall Box can be installed at your home or workplace. A full charge takes approximately 7.5 hours using a 7.4 kW charge point, or five hours using a 11 kW charge point (with optional 11 kW On Board Charger).

A 100 kW rated Rapid (DC) Charger, commonly found at a service station, can deliver an 80% charge in approximately 30 minutes. (Cables for these chargers are tethered to the charge point).

Whilst it is possible to charge your New Citroën ë-Berlingo Van Electric via a domestic 13A single phase AC supply, it only offers a limited speed, with a full charge taking approximately 31 hours. Because of this, Citroën UK does not recommend this as a regular method of charging. It is possible to purchase a domestic charging cable as an accessory from your local Citroën Retailer for occasional charging from a 3-pin socket.

To make charging worry-free and easier for our customers, Citroën has partnered with Pod Point (for Wall Box installations) and bp pulse (a public charging network). Please ask your Citroën Retailer for full details of these programmes as well as details of available grants and conditions of eligibility.

*l'échappée belle*

# MY CITROËN APP

Stay connected to your Citroën Berlingo Van thanks to the My Citroën app, providing you with all of the essential information you may need.

#### With the My Citroën app you can:

- Locate your vehicle.
- Book service appointments.
- Consult the vehicle handbook.
- Consult the vehicle servicing guide.
- Contact Citroën Assistance.

#### In addition to these features, on New Citroën ë-Berlingo Van electric, you can:

- Check the current battery charge.
- Check the remaining range.
- Review remaining charging time.
- Setup deferred charging.
- Start the interior temperature.

## OUR 10 COMMITMENTS

<b>Powertrain</b>	<b>50 kWh Battery</b>		
WLTP Range (Combined)	Up to 165 - 170 miles		

(1) Figures shown are for comparison purposes only; you should only compare these fuel consumption and CO<sub>2</sub> figures with other cars tested using the same technical standard. The fuel consumption you achieve, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO<sub>2</sub> figures. The CO<sub>2</sub> figures shown are NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These NEDCeq figures are based on the outgoing test cycle and will be used to calculate tax for the first registration. CO<sub>2</sub> and fuel economy figures may vary according to wheel fitment and optional extras fitted.

With the added reassurance of a warranty, routine servicing and maintenance, as well as 24-hour roadside assistance, you are protected.

WARRANTY

### • CITROËN WARRANTY

Every new Citroën van has the benefit of a three year\* warranty package, plus a five year anti-perforation\*\* warranty and a two year paint warranty.

### • CITROËN ASSISTANCE

Citroën Assistance brings rapid expert roadside assistance to you in an emergency in response to a telephone call. It comes free of charge for a full year and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both van and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. Please note, Citroën Assistance only applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out of fuel, misfuelling, loss of keys, lock-ins, road traffic accidents and punctures/wheel changes. Citroën e-Relay 100% electric comes with a free of charge eight year or 100,000 mile (whichever occurs first) Citroën Assistance coverage, starting from the date of registration. For more details, please contact Citroën at <https://www.citroen.co.uk/owner-services/emergency-assistance>

\* 2 years' unlimited warranty. No-fee customer option of one year's Dealer provided warranty, only on vans sourced from Citroën UK Limited. Note: Dealer provided warranty is limited to 100,000 miles for vans.

\*\* Against all internal to external perforation to bodywork or underbody.

CONTRACT

### • CITROËN MAINTENANCE

From roadside assistance to replacing wear and tear parts or regular servicing, with Citroën Maintenance you have total peace of mind. For a one-off fee or low monthly payment, our experienced engineers will take care of your Citroën, whatever happens. To find out more, contact your Citroën Dealer or Citroën Authorised Repairer.

### • CITROËN SERVICING

Available up to one year from your vehicle's registration date, but before its first chargeable service, a Citroën Servicing Package enables you to pay in advance for your vehicle's servicing needs for three years/35,000 miles. For further information, please contact your Citroën Dealer.

### • CITROËN MOT TEST

Once your vehicle is three years old, it requires an annual MOT Test. This is a legal requirement to check that it meets road safety and environmental standards. Our nationwide network of Citroën Authorised Repairers know your Citroën best, so if your vehicle's MOT Test is due, why not contact your local Citroën dealer? You can be confident that your vehicle will be looked after by one of our expert trained Citroën Technicians, nominated by DVSA as accredited MOT Testers. Plus, whilst your vehicle is with us, we'll carry out a free manufacturer diagnostic test, check for any new technical updates and carry them out for free - that's the advantage of getting your test done by the people who really know your Citroën.

### DOWNLOAD THE MY CITROËN APP

on your smartphone and benefit from information and services personalised to your Citroën vehicle.

### DOWNLOAD THE SCAN MY CITROËN MOBILE APP

Get all the vital information at your fingertips. Scan features and components and access details of the exact new Citroën that you're interested in.

### RATE, SUBMIT AND SHARE YOUR OPINION ABOUT YOUR VEHICLE

or in a Citroën Dealership when purchasing or servicing your vehicle. Ratings and reviews are published on the Citroën website.

### BP PULSE

We've partnered with bp pulse, the largest public charge network in the UK, to offer Citroën customers buying a brand new electric vehicle a 6 month free subscription to bp pulse. This offers access to a wide range of public charging points, many of which do not incur any extra charge for electricity used.

CITROËN and TotalEnergies - Note: Images and specification descriptions are dependent on trim level and options specified. Every endeavour has been made to ensure that the information and details contained in this brochure were accurate at the time of going to press. However the company reserves the right, whilst preserving the essential characteristics of the models described, to introduce at any time modifications, changes of details, equipment or accessories. Every effort will be made to bring this brochure up to date, but in order to avoid any misunderstanding please consult your Dealer. ### Exterior Features

16 inch 'Starlit' black alloy wheels  
Body colour rear bumper, side rubbing strips, exterior door handles

### Interior features

Hard plastic floor protection in load area

# 1. CHOOSE YOUR LEVEL - CREW VAN

The Berlingo Van also offers the option to have a Crew Van for those who want the versatility to decide between carrying up to five people, whilst also having a large and adaptable cargo area. The Crew Van has remarkable modularity and the load space is extremely flexible due to the ingenious moveable bulkhead with a load-through hatch and single passenger seat that folds forward.

Please note that glazed doors in the second row are not offered as standard or an option on the Berlingo Van Crew Van due to the impact that having glazed doors may have on the tax status of the vehicle. Please check with your local HM Revenue & Customs office for further details.

## ENTERPRISE PRO CREW VAN

### Comfort & Convenience

- Air conditioning
- Rear parking sensors
- Cruise control with variable speed limiter
- Electric versions only: Carpeted floor in cabin

### Safety & Security

- Automatic electronic parking brake
- Alarm
- One touch electric windows with heated mirrors
- Electric folding mirrors
- Tyre pressure monitor
- Front lateral and passenger airbags
- Electric Versions Only: Acoustic Vehicle Alerting System (audible outside vehicle)

### Technology & Entertainment

- DAB radio with steering mounted controls, USB port and 8" colour touchscreen offering Apple CarPlay™ & Android Auto

### Exterior Features

- 16 inch 'Twirl' full wheel trims

### Lighting and Visibility

- Front fog lights

### Seating

- Three folding seats in second row, with movable bulkhead and a load-through hatch
- Single folding front passenger seat

Please note that glazed doors are not available on the Berlingo Van Crew Van. Please check with your local HM Revenue & Customs office for further details.

# 1. CHOOSE YOUR LEVEL - ë-BERLINGO VAN

New ë-Berlingo van is a 100% Electric van with zero tailpipe CO2 emissions, powered by a rechargeable Lithium-Ion battery. Its 100 kW electric motor assures great performance (equivalent to 136 hp) with unprecedented refinement. The 50 kWh battery fitted as standard gives a range of up to 170 miles (WLTP cycle - range dependent on use and driving style). It's easy to charge, with a practical charging cable and a handy deferred charging option.

**Range:** Up to 171 miles offers plenty of range for day-to-day driving. Built-in capability for rapid charging opens up long-distance trips too.

**Driving experience:** With 260 Nm of torque instantly available, New ë-Berlingo van is as at home on the motorway as in the city. No gear changes means a perfectly smooth delivery of power.

## Charging

- The included Type 2 charging cable gives you accelerated charging at a home, work or public charging point, compatible with the widest range of charging points. Because you charge your van when you aren't using it, you save time when you get on the road.
- New ë-Berlingo van also features a **rapid charging port** with the widely accepted CCS connector. You don't need to buy a cable for this because rapid chargers have the cable built in. On a 100 kW charging station you can get up to 80% charge from empty in just 30 minutes. So in the time it takes you to take a coffee break, you've effortlessly extended your van's range.
- You can buy a domestic charging cable as an accessory from your Dealer for occasional charging from a 3-pin socket. Due to the limited speed of this charging method it is not recommended for regular use.

## Key selling points above other electric vans

**All the benefits of Berlingo van** - the same load volume as petrol and diesel up to 4.4m<sup>3</sup>, payload up to 800 kg, the practicality & flexibility - without the compromises you've traditionally been told to expect with electric vehicles.

- Type 2 charging cable **included** - the right charging cable for home and public charging points
- Rapid charging capability **included** as standard - allowing you to open the way to longer trips
- ë-services including ë-Remote Control, for remotely scheduling charging or climate pre-conditioning, enabling you to set the van's interior temperature to a comfortable 21°C in advance, no matter what the temperature outside might be.

\* Worker Pro, Enterprise Pro and Driver Pro versions benefit from the EXTENSO® seat which provides an additional load length of 1273mm and increases the load volume by 0.6m3

\*\*Crew Van dimensions are based upon figures with the 2nd row seats in place. For information on dimensions with 2nd row seats folded, and 2nd row seats folded with EXTENSO® seat, please refer to Berlingo Dimensions page.

\*\*\* WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other vans tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures.

CO2 figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the certified CO2 emission output.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local

Citroën Dealership for the most up-to-date prices and specification details for all models.

Legal notice ELECTRIC VEHICLES:

(1) The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used.

## 2. ELECTRIC VAN PRICING BREAKDOWN

To make the pricing of our fantastic e-Berlingo vans as simple as possible, we have provided a basic breakdown below. Please note that the Plug in Van Grant is applied to the Base Vehicle Price (incl. VAT) including any manufacturer discounts. We have not included any manufacturer discounts in the breakdown below, and so the prices are subject to change based upon any discounts being offered at the time. Please contact your local Dealership to find out about any manufacturer promotions which may impact the amount of PiVG that you can receive, and therefore the overall price of the vehicle.

	Length	Version	Maximum Indicative Payload (kg)	Load space (m <sup>3</sup> )*	Gross Vehicle Weight (kg)	WLTP CO2 g/km	WLTP Combined Range (miles)	WLTP City Range (miles)	LCDV Code	Basic M.R.R.P. <b>ELECTRIC VEHICLE SPECIFIC</b>							
11 kW three-phase onboard charger - offers faster charging only where three-phase power is available. This option is not recommended unless you intend to charge your New ë-Berlingo Van primarily from a source connected to three-phase power (unlikely if a home charge point). Using this charger in conjunction with a single-phase power source will actually charge your vehicle more slowly than the standard 7.4 kW single-phase onboard charger.		LZ04	-	-	£300.00	£300.00	£300.00

**SpeedCam package**

The SpeedCam package helps you identify situations which require increased attention by sending you both audible and visual alerts (subject to settings). Within the UK the service highlights different types of speed cameras, and red light cameras, as well as accident blackspots. While the service is operational across most of Europe, it adapts as necessary when travelling in different countries to ensure the local laws with respect to Speed Camera identification are followed.

This option can be added to your Citroën Connect Nav subscription at any time. Please visit <https://services-store.citroen.co.uk/> to subscribe

**Citroën Connected Services**

Vehicles equipped with the Citroën Connect box, have an embedded SIM card. So as well as the safety features of this system, a range of other 'connected services' which require data transmission, can be offered on a subscription basis.

- Telemaintenance: proactive monitoring of your vehicle & contact when something needs attention
- Real Time Traffic & Speedcam: live data to enhance the Citroën Connect Nav system

Service availability depends on the hardware on each vehicle. To see if your vehicle is eligible for any services and subscribe, log in or create an account on <https://services-store.citroen.co.uk/>

\*Additional terms & conditions apply to connected services, including customer acceptance of location sharing prior to activation. ^Subject to subscription - after you have taken delivery of your vehicle, please subscribe on: <https://services-store.citroen.co.uk/>

<b>PERFORMANCE (all figures driver alone)</b>	
Max speed (mph)	84

Legal notice ELECTRIC VEHICLES:

(1) The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used.

The BlueHDi 100 fuel economy information shown above is provisional

\*WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other vans tested to the same technical standard. The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures. The CO<sub>2</sub> figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

The BlueHDi 100 weight and technical information shown above is provisional

(1) Without driver. Kerb weight is calculated for a European base specification vehicle including oil, water, lubricants, tools, spare wheel and 90% full fuel tank. Weights may change with the addition of equipment.

(2) Maximum indicative payload is calculated as the difference between GVW and kerb weight. However, due to manufacturing tolerances and differences in the specification of UK vehicles, the mass in service figure provides a closer indication of the vehicle weight and therefore enables a more realistic payload to be calculated. An individual vehicle must be weighed to establish the exact kerb weight and payload applicable to that vehicle. It is the responsibility of the driver to ensure the vehicle is operated within the legal limits

(3) Within limits of GVW.

(4) Maximum recommended towing weight within limits of GTW.

### CITROËN 3 YEARS OF WARRANTY

All vehicles first registered in the UK and purchased from a UK Citroën Dealer benefit from a Citroën 2 - Year unlimited mileage manufacturer's warranty and a free optional additional 1 year of warranty provided by the Citroën Dealer Network in the UK. This additional warranty carries a mileage limit of 100,000 miles from first registration and is dependent upon the manufacturer's recommended servicing being carried out at the specified time or distance intervals.

In addition, the ë-Berlingo van offers a manufacturer's battery warranty of eight years/100,000 miles and has up to 70% charging capacity

For full terms and conditions, please consult your Citroën Dealer in the UK.

### CITROËN ASSISTANCE

In response to a free telephone call in the UK, Citroën Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for 12 months, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe.

Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. You can also purchase additional Citroën Assistance via your local Citroën dealer at any time.

Citroën Assistance applies to incidents covered by the new vehicle warranty, and non-vehicle faults, such as running out of fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/stolen, road traffic accidents and punctures/wheel changes.

ë-Berlingo van comes with a free of charge 8 year or 100,000 miles (whichever occurs first) Citroën Assistance starting from the date of registration.

### CITROËN FINANCIAL SERVICES

Free2Move have a number of financial products designed to help you afford the Citroën of your choice. We can arrange a finance plan quickly and conveniently. What's more, it will be as suited to your needs as your new Citroën. Our finance plans combine all the know how of a company that has an extensive knowledge of the car market with a financial service you can trust. Tell your Citroën dealer what you want and let us do the rest. Just ask for a free, no obligation quote. Written quotations are available on request from PSA Finance UK Ltd, 61 London Road, Redhill RH1 1QA. Finance is subject to status. Over 18's only, a guarantee may be required.

### FREE2MOVE CONNECT FLEET

All ë-Berlingo Vans ordered from 1st April 2021 will include a FREE 6 month trial of the Free2Move Connect Fleet telematics services. The trial covers all 3 of the packs shown below and is an online fleet management platform. With real-time data provided by on-board vehicle telematics, your customers will have an optimised solution for monitoring their fleets.

The embedded hardware is already fitted to all new ë-Berlingo Vans as standard specification. It is simply switched on over-the-air when customers activate the FREE 6 month 'PACK 3 - GEOLOCATION' trial for the Connect Fleet platform

- Pack 1: Fleet Management Normal Price £10 + VAT per vehicle per month

- Pack 2: Eco-driving Normal Price £11 + VAT per vehicle per month

- Pack 3: Geolocation Normal Price £12 + VAT per vehicle per month

Further details are available at [www.free2move-lease.co.uk/our-services/connect-fleet](http://www.free2move-lease.co.uk/our-services/connect-fleet)

### CITROËN SERVICING

Available up to one year from your vehicle's registration date, but before its first chargeable service, a Citroën Servicing package enables you to pay in advance for:

- Scheduled Servicing^

- Annual Service(s)^ for vehicles with a two year service plan

- Brake Fluid Replacement^

This package can be personalised depending on your needs, with options ranging from 12 to 60 months and 10,000 to 100,000 miles.

### TERMS AND CONDITIONS

**All information and prices correct at time of publication, but are subject to change at any time without prior notice**

**(which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).**

It is our policy to continually improve our vehicles in every way and we reserve the right to modify our vehicles' price, specification (including colour), equipment, accessories and characteristics or to discontinue any model, without notice, at any time. To avoid any misunderstandings you are advised to check with your Citroën dealer the specification (including colour), equipment accessories and equipment relating to any Citroën vehicle and the exact cost and availability prior to ordering. Where a feature is described as an option in this publication it should be assumed that it is at extra cost unless specifically stated otherwise.

Issued by Sales and Marketing, Citroën UK Ltd, Pinley House, 2 Sunbeam Way, Coventry CV3 1ND.

For further information call Citroën Fleet Connect on 02477 714133 or visit our website at [www.citroen.co.uk](http://www.citroen.co.uk).

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please consult your local Citroën dealer for the most up-to-date prices and specification details for all models. CO<sub>2</sub> figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the certified CO<sub>2</sub> emission output.

\* WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO<sub>2</sub> values of other vans tested to the same technical standard. The fuel consumption achieved, and CO<sub>2</sub> produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO<sub>2</sub> figures.

\*\* Includes driver

\*\*\* The Government PIVG is worked out at 35% of the Base Vehicle Price (incl. VAT) and including any discounts applied up to a maximum of £2,500.

<sup>†</sup> All Manufacturer's Recommended Basic Prices are exclusive of V.A.T., Delivery to Dealer and Number Plates, Government First Registration Fee and Vehicle Excise Duty.

<sup>^</sup> Enterprise Pro and Driver Pro versions benefit from the Moduwork® seat which provides an additional load length of 1162mm and increases the load volume by 0.5m<sup>3</sup>.

<sup>≠</sup> Crew Van dimensions are based upon figures with the 2nd row seats in place. For more information on dimensions with 2nd row seats folded, and 2nd row seats folded with EXTENSO® seat, please refer to the Berlingo Pricing and Specification file.

Legal notice ELECTRIC VEHICLES:

<sup>1</sup> The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as: speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used.

- 5 Includes passenger airbag.
- 6 Includes front lateral and passenger airbags.
- 7 Includes Visibility Pack on Worker Pro and Enterprise Pro versions.
- 8 Cannot be ordered with Keyless entry and start or automatic dual zone air conditioning. Included with BlueHDI 130 Auto engine.
- 9 Rear view mirror is only supplied when glazed bulkhead is ordered as well. Incompatible with Surround Rear Vision.
- 10 Standard on XL versions.
- 11 Includes front passenger's airbag and Visibility Pack.
- 12 In lieu of hard plastic floor protection.
- 13 Removes full wheel covers.

14 Incompatible with Special Paint. Driver Pro versions will have Black Exterior Door Mirrors only.

### SpeedCam/Danger Zones package

The SpeedCam/Danger Zones package helps you identify situations which require increased attention by sending you both audible and visual alerts (subject to settings). Within the UK the service highlights different types of speed cameras, and red light cameras, as well as accident blackspots. While the service is operational across most of Europe, it adapts as necessary when travelling in different countries to ensure the local laws with respect to Speed Camera identification are followed. This option can be added to your Citroën Connect Nav subscription at any time.

Please visit <https://services-store.citroen.co.uk/> to subscribe.
