CO<sub>2</sub> figures, P11D values, BIK%, BIKE and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO<sub>2</sub> figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO<sub>2</sub> emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

For further information on CO<sub>2</sub> and pricing for vehicles with optional equipment, please visit [www.peugeot.co.uk](http://www.peugeot.co.uk) and configure your chosen vehicle with your preferred options.

\*Indicative monthly BIK amounts are calculated by taking the P11D of a standard factory built vehicle without the addition of any optional equipment. This is then multiplied by the income tax rate (20 or 40%) giving an annual amount. This figure is then divided by 12 to reach a monthly amount. The figures quoted are for guidance only. For further information on company car tax comparisons please visit [www.compare.peugeot.co.uk/company-car-tax](http://www.compare.peugeot.co.uk/company-car-tax).

» Plug-in Hybrid Electric Vehicle Range (WLTP) for standard specification without factory fitted options. Factory fitted options may reduce Electric Vehicle Range.

The fuel consumption or electric range achieved, and CO<sub>2</sub> produced (where applicable), in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); the starting charge of the battery (PHEV only); variations in weather, driving styles and vehicle load. The plug-in hybrid range requires mains electricity for charging. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption, electric range and CO<sub>2</sub> figures.\*On the Road\* MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

Figures shown are for comparison purposes and should only be compared to the fuel consumption, electric range and CO<sub>2</sub> values of other cars tested to the same technical standard.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

The fuel consumption or electric range achieved, and CO<sub>2</sub> produced (where applicable), in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); the starting charge of the battery; variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption, electric range and CO<sub>2</sub> figures.

Figures shown are for comparison purposes and should only be compared to the fuel consumption, electric range and CO<sub>2</sub> values of other cars tested to the same technical standard.

^ 'LOW': Low speed city driving, representative of city centre driving, maximum 35mph.  
^^ 'MEDIUM': Medium speed town driving, representative of town or suburban driving, maximum 50mph.  
^^^ 'HIGH': High speed rural driving, representative of A-road or dual carriageway driving, maximum 60mph.  
^\* 'EXTRA HIGH': Extra High speed motorway driving, representative of a typical European motorway, maximum 81mph.  
^^^ 'COMBINED': A mixed journey average of all elements

Figures quoted refer to the information visible on (websites, brochures, etc.) by our local PEUGEOT Retailers. Figures are for comparison purposes only and are not intended to be used for legal or financial purposes. Figures resulting from ongoing product development, range evolutions, testing and evaluations.

 ^^^ 'COMBINED': A mixed journey average of all elements

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

All PEUGEOT models equipped with BlueHDi engine technology are fitted with SCR technology (Selective Catalytic Reduction) and particulate filtration to treat exhaust gases.

## How Does the Process Work?

The process specifically targets the pollutants of diesel combustion, removing hydrocarbons and carbon monoxide, reducing nitrogen oxides by up to 90% and eliminating 99.9% of particulates.

This occurs during a three stage process:

- Stage One - the oxidation catalytic converter eliminates the hydrocarbons (HC) and the carbon monoxide (CO), transforming them into water (H<sub>2</sub>O) and carbon dioxide (CO<sub>2</sub>)
- Stage Two - the SCR (Selective Catalytic Reduction) transforms the nitrogen oxides (NO<sub>x</sub>) into water (H<sub>2</sub>O) and nitrogen (N<sub>2</sub>), which is the main constituent of air (78%), due to the addition of AdBlue® (mixture of urea and water)
- Stage Three - the Particulate Emission Filter eliminates 99.9% of the particulates by number, leaving just harmless water (H<sub>2</sub>O) and nitrogen (N<sub>2</sub>) gases to be emitted from the exhaust

To allow treatment of nitrogen oxides (NO<sub>x</sub>) emissions, PEUGEOT passenger cars powered by BlueHDi engine technology are fitted with a separate AdBlue® tank to hold the solution. In most instances this tank is around 17 litres in size. AdBlue® like fuel and screenwash is treated as a consumable and must be kept regularly topped up. Various factors can affect consumption of AdBlue® including but not limited to driving style, weight carried in the vehicle and environmental factors.

PEUGEOT Model	AdBlue® Tank Size	Tank Location	Top Up Required
3008 SUV	17 litres	Drivers side, under fuel filler cap	Around 3,500 miles / after 7 fuel fill-ups

## Topping Up AdBlue®

To prevent your PEUGEOT running out of the AdBlue® additive the car is fitted with a low level detection facility, just as would be the case with fuel. A series of notifications are available but where the AdBlue® range exceeds 1,500 miles (2,400 km), no information range is automatically displayed.

-  Remaining range between 1,500 and 500 miles (2,400 and 800 km): When switching on the ignition, the orange warning lamp (as shown on the left) comes on for about thirty seconds, accompanied by the display of a message ("Top up AdBlue: Starting prevented in x miles/km") indicating the remaining range expressed in miles or kilometres. The reserve level has been reached; it is recommended that you top up as soon as possible
-  Remaining range between 500 and 62 miles (800 and 100 km): When switching on the ignition, this warning lamp comes on, accompanied by an audible signal (1 beep) and the display of a message (e.g. "Top up AdBlue: Starting impossible in x miles") indicating the remaining range expressed in miles or kilometres. When driving, the audible signal and the message display are triggered every 62 miles (100 km) until the level is topped up. It is essential to top up as soon as possible and before the tank is completely empty; otherwise it will not be possible to restart the engine after the next stop
-  Remaining range less than 60 miles (100 km): When driving, the audible signal and the message display are triggered every 6 miles (10 km) until the AdBlue tank is topped up. It is essential to top up as soon as possible and before the tank is completely empty; otherwise it will not be possible to restart the engine after the next stop.

## Important Points

- If your vehicle's AdBlue® tank is completely empty – which is confirmed by the alert messages and the impossibility of starting the engine - you must add at least 5 litres of AdBlue® solution
- Never pour AdBlue® into the Diesel fuel tank
- If any AdBlue® is splashed, or if there are any spillages on the side of the body, rinse immediately with cold water or wipe with a damp cloth
- If the fluid has crystallised, clean it off using a sponge and hot water
- Keep AdBlue® out of the reach of children, in its original container
- Never store AdBlue® containers in your vehicle
- Use only AdBlue® fluid that meets the ISO 22241 standard
- Never transfer AdBlue® to another container: it would lose its purity
- Never dilute AdBlue® with water
- Important: in the event of a top-up after an AdBlue® breakdown, you must wait about five minutes before switching on the ignition, without opening the driver's door, unlocking the vehicle or bringing the electronic key into the passenger compartment.

## EXTERNAL DIMENSIONS

Length (mm)	4,447
Width (mm) excluding mirrors	1,841
Height without / with roof bars (mm)	1,620 / 1,624
Wheelbase (mm)	2,675
Front / rear overhang (mm)	923 / 849
Front / rear track width (mm)	1,579 - 1,601 / 1,587 - 1,610
Approach / departure angles (degree)	20° / 29°
Ground clearance (mm)	219
Turning circle between pavements (m)	10.67

## EXTERNAL DIMENSIONS FOR PARKING

Width with front / rear doors open (mm)	3,617 / 3,402
Width with door mirrors open / folded (mm)	2,098 / 1,906
Height with bonnet open (mm)	1,945
Height with boot open (mm)	2,060

## INTERNAL DIMENSIONS

Number of seats	5
Front / rear elbow room (mm)	1,493 / 1,484
Front / rear shoulder room (mm)	1,451 / 1,422
Front / rear head room (mm) <sup>(1)</sup>	915 / 912 (847 / 843)
Distance between front seat back and front pedals (mm)	816
Distance between rear seat back and front seat back (mm)	889

## BOOT, STORAGE & FUEL TANK

Length with rear seat back up (mm)	919
Maximum loading length (mm)	3 005
Width between wheel housings (mm)	1 053
Height under parcel shelf / head room (mm) <sup>(2) (1)</sup>	609 / 974 (871)
Opening of boot, height / width (mm)	821 / 998
Min. boot volume (dm <sup>3</sup> VDA 210) <sup>(3)</sup>	520 / 395 (HYBRID)
Max. boot volume (dm <sup>3</sup> VDA 214) <sup>(5)</sup>	1 482 / 1 357 (HYBRID)
Total volume of storage areas in the passenger compartment (litres)	32
Boot storage box for charging cable (litres)	25
Fuel tank capacity (litres)	53 / 43 (HYBRID)

(1) Value in brackets: with optional panoramic opening glass roof

(2) Adjustable boot floor in low position

(3) Measured according to VDA method using parallelepipeds of 200x100x50 mm  
The boot volume is reduced if the spare wheel option is taken

PEUGEOT offer two levels of Service Contract:

PEUGEOT Service Plans

What's included:

- PEUGEOT Service Plans offer complete assurance that all your servicing costs will be completely covered for the duration of the plan
- We offer PEUGEOT Service Plans for up to five years with many mileage options
- One-off up front or monthly direct debit payment options available
- All packages are affordable and inflation proof, which means they will remain at a fixed cost for the duration of the plan.

Monthly price examples\*:

36 Months / 30,000 Miles	48 Months / 40,000 Miles	60 Months / 50,000 Miles
£16.28 per month	£20.30 per month	£20.00 per month

\* Price examples based on an annual mileage of 10,000 per annum

A PEUGEOT Service Plan can be purchased up to 12 months after registration date. The prices quoted above are indicative, for a bespoke quote please contact your local PEUGEOT Dealer. If the plan is taken out after the date of registration an additional payment will be required to cover this starting period. Any normal wear and tear maintenance work such as replacement of tyres, brake pads, brake discs, clutches, shock absorbers, wipers, batteries, bulbs, silencer, exhausts and windscreens are excluded.

Servicing must be carried out by a PEUGEOT Authorised Repairer in the UK. PEUGEOT Motor Company reserve the right to change, amend or withdraw this product at any time.

Extended PEUGEOT Assistance\*

What's included: Extension of your PEUGEOT Assistance Cover

- Offers you the opportunity to extend PEUGEOT Assistance up to a further two years
- Cover includes:
  - PEUGEOT Assistance from Home
  - PEUGEOT Roadside Assistance
  - PEUGEOT Recovery
  - PEUGEOT Onward Travel
  - PEUGEOT European Cover

\* Excludes non-vehicle induced faults

To find out about extending your PEUGEOT Assistance cover, call 0800 294 0294

VAT is calculated at 20%

VAT is not applicable to cars sold in the Channel Islands

Cars with a list price of over £40,000 at first registration will pay an additional rate of £335 per year on top of annual tax 'standard rate', for five years from the start of the second licence, before returning to the rates listed above. This supplement does not apply to electric vehicles.

PEUGEOT 3 Years of Warranty

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 year unlimited mileage manufacturer's warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retailer Network in the UK

The traction battery on HYBRID versions benefits from an 8 year/100,000 mile warranty to 70% of its original capacity

PEUGEOT Assistance

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service.

PEUGEOT Assistance is available every minute of the day and night; 365 days of the year, for you and anyone else driving your PEUGEOT with your permission.

Full details are available at [www.peugeot.co.uk](http://www.peugeot.co.uk)

Terms and Conditions

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

It is our policy to continually improve our vehicles in every way. To avoid any misunderstandings you are advised to check with your PEUGEOT Retailer the prices, specification (including colour), equipment, accessories and equipment relating to any PEUGEOT vehicle and the exact cost and availability prior to ordering.

Where a feature is described as an option in this publication it should be assumed that it is at extra cost unless specifically stated otherwise.

Issued by Sales and Marketing, PEUGEOT Motor Company PLC, Pinley House, Sunbeam Way, Coventry CV3 1ND.
