Jucaro Beige with Frozen Grey highlight

INTERIOR WORLDS.

■ ATELIER.

The standard Atelier interior world is characterised by the gentle contrast of Dark interior trim, Grey cloth combination and individual Blue accents. The trim in the instrument panel and the door areas is made from the mallow plant kenaf. This innovative material is a particularly distinctive design feature of the standard interior world. Not only is it a lightweight material, but its subtly blended surface

□ LODGE.

Like no other equipment variation, the optional Lodge interior world embodies the new and contemporary premium concept of BMW i. The especially aesthetic combination of matt wood, soft leather and soft wool is essentially without equal in the automotive world. The Eucalyptus and Oak wood are obtained only from certified and environmentally-friendly lumber companies. The wood is neither bleached, painted nor lacquered and thus retains its surface colour and texture. The standard interior trim is Eucalyptus wood, matt. As shown below, the Dark Oak, matt is available as a no cost option.

LOFT.

With the light Grey tones of the seats, sections of the dashboard and the side panels, the optional Loft interior world is characterised by an especially purist aesthetic. The modern cloth combination for the seats in both the front and rear is manufactured from recycled synthetic material, similar to that used in high-quality functional wear. This same material provides optimum comfort by means of its temperature-regulating properties.

STANDARD & OPTIONAL EQUIPMENT HIGHLIGHTS.

The electric glass sunroof features sun protection glass, tilt and slide function and an integrated wind deflector.

Comfort Access allows keyless access to the vehicle via both the driver and front passenger doors as well as the bootlid.

The three-stage seat heating for the driver and front passenger offers rapid warming of the seats at the push of a button.

The backrests can be folded down in a 50:50 ratio and each side can be set to one of three positions, as required.

The harman/kardon loudspeaker system with surround mode has a 360W digital amplifier, vehicle-specific equalising and 12 speakers.

The BMW Professional Multimedia Navigation system features iDrive 6 (ID6) software for the 10.25" navigation system.

The seat belts for all four seats appear in BMW i Blue. They provide the same functionality as the standard three-point seat belts.

The multi-function buttons for the straps and cupholders. steering wheel can be used to operate the telephone settings, audio and Cruise Control.

Emergency call

Emergency call will start in 3 seconds.

Cancel emergency call

The Mall, London, London

51° 30' 11"N 0° 08' 15"W, heading N

BMW Emergency Call automatically establishes a voice connection with the local emergency services without the use of a mobile phone. It also transmits additional information such as the vehicle's current location. BMW Emergency Call can also be triggered manually in case other road users require help.

The single zone Automatic air conditioning includes a Max-Cool button, Automatic Air Recirculation (AAR) and an active carbon microfilter.

The folding front armrest has three positions and includes an integrated storage compartment.

and cupholders.

Extended storage includes several practical storage possibilities including 12V power sockets, retaining straps

The BMW Connected App.

Your personal mobility assistant.

The BMW Connected App learns your mobility routines, reads your calendar and knows when you need to leave, providing you with a personal experience that is integrated into your everyday life. The App allows you to fully unleash the capabilities of BMW's innovative technologies intuitively through your smartphone.

Learned destinations

BMW Connected learns your most frequently travelled routes and provides them as 'learned destinations' for future suggestions. If destinations are repeatedly visited, they are automatically listed at the usual time.

□ Amazon Echo

BMW Connected Skill is now available for Amazon Echo. Lock your BMW by simply asking, check the status of your car or when to leave for your next meeting without lifting a finger.

amazon echo

Estimated time of arrival Never be late again with detailed updates of your regular routes and alternative options so you can manage your journey and avoid delays.

■ Apple CarPlay[®] preparation Enables wireless and comfortable usage of your iPhone[®] in your vehicle via Apple CarPlay[®]. Selected smartphone content can be displayed and operated via the user interface of the vehicle.^{1, 2, 3}

Door to door guidance Get detailed walking directions from your parking spot to your destination. A map with a location pin also shows where you last parked once you're ready to head back to your car.

□ Time to leave A notification on your Apple iPhone[®], compatible Android phone, your Apple Watch[®] or Samsung Gear S3[®] watch will recommend a time to leave in order to arrive on time.

■ Digital Charging Service provides an intelligent way to charge. Simply enter your personal energy tariff, desired departure time and connect your car to an outlet or your BMW i Wallbox connect.^{6, 7, 8}

other road users require help.²

BMW Online Services forms the basis for using the BMW ConnectedDrive functions. In addition, selected smartphone apps can be used in the vehicle and the BMW ConnectedDrive Store can be accessed.^{1, 4}

In touch with your world.

The BMW ConnectedDrive Services & Apps are on hand to make sure you have more time for the important things in life. Various innovations by BMW make things more convenient for you every day - whenever you want.

Concierge Services connects the driver to a BMW Call Centre agent who acts as their personal assistant at the touch of a button. The agent can locate a particular restaurant, for example, and send the address directly to the BMW's navigation system.^{1,4}

■ BMW Emergency Call

¹ = Requires a free BMW ConnectedDrive account. ² = Available and active without runtime limitations. Usage cannot be guaranteed permanently due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems). using a data connection will use data from the SIM card in the iPhone[®]. Additional data charges may be applied by the mobile network provider. Real Time Traffic Information

(RTTI) collects current traffic information about motorways, main and country roads and the most important urban routes. It relays information about delays and dangers almost instantly and suggests the best alternative routes.^{1, 4}

automatically establishes a voice connection with the local emergency services without the use of a mobile phone. It transmits information about the vehicle's current location and can be triggered manually in case

BMW Connected+

provides a more extensive level of integration of the BMW Connected App in your BMW. You can enjoy seamless connectivity between all BMW Connected touchpoints and your BMW and thus benefit from the personalised services supported by the BMW Open Mobility Cloud.⁵

³ = Functions

CHARGING.

Soon after purchasing an electric car, you'll find that charging becomes more of an intuitive routine than a specific operation. Thanks to the portfolio of 360° ELECTRIC Products and Services, which provide easy and convenient charging, you can always rely on your BMW i3.

Using the cable provided, you can charge the high voltage battery via a conventional¹ socket. However, for regular fast charging BMW recommends the BMW i Wallbox for a convenient home solution. With the BMW i Wallbox Connect, AC fast charging can take less than 5 hours (0-80%). For rapid charging, the standard DC rapid-charge function is the perfect solution for the BMW i3. Charging up at a suitable public charging point, for example, a DC rapid-charge facility takes approximately 42 minutes (0-80%).

For more information please visit **www.bmw.co.uk/charging**

	Standard charge	AC Fast charge	AC Rapid Charge	DC Rapid charge

PUBLIC CHARGING.

FOR FAST AND SAFE CHARGING AT HOME.

The progressive and ergonomically designed BMW i Wallbox Connect fulfils the important requirements of safety and comfort making it the ideal home charging solution. With the standard charging cable, you can charge vour BMW i3 from 0-80% at home via a conventional socket¹ in around fifteen hours. However, charging at home is made even easier with the BMW i Wallbox Connect. With a charging capacity of up to 11kW the lithium-ion high-voltage battery in the BMW i3 and BMW i3s is charged 0-80% in around 3.2 hours². The ergonomic, high-quality design of the BMW i Wallbox Connect provides maximum charging convenience with the ability to wrap the cable around the Wallbox. The BMW i Wallbox Connect also features RFID chip card authentication for secured charging of up to three different vehicles. For even greater convenience, the BMW i Wallbox Connect is WiFi enabled for simple integration to your home network^ and can be controlled via the BMW iV smartphone app (iOS, Android), where session energy consumption can be viewed. Furthermore, 'Intelligent Charging' is possible in connection with the additional Digital Charging Service available from BMW.

Collectively these are all aspects that have a positive impact on cost and ultimately ensures a sustainable charging experience.

BMW i WALLBOX CONNECT.

ChargeNow is a service from BMW i which, in partnership with BP Chargemaster, enables customers in the UK to access the largest network of public charging points nationwide with a single card – the BMW i ChargeNow charging card. Charging points in the ChargeNow network are displayed using the BMW i ConnectedDrive Services in the specially developed navigation system, making it especially quick and easy to find and use public charging points in conjunction with the BMW i Public Charging cable supplied with the vehicle.

information online.

For more information please visit www.bmw.co.uk/charging

A delivery, fitting and warranty package for the BMW i Wallbox Connect is also offered via our partner, BP Chargemaster.

Starting from £975* this includes the BMW i Wallbox Connect, Standard Installation, VAT and 3 year warranty.

During the installation process, the service team will be able to advise on any questions you may have regarding how to charge and use your BMW i Wallbox Connect, and where best to position it in relation to where you park your BMW i3. The installation service is managed by BMW and our partner, BP Chargemaster, and is customised to your specific requirements.

For responsible charging, the BMW i3 comes with a seven day timer to aid charging at night, when renewable energy makes a higher proportion of the energy supply and when demand is at its lowest.

For more information please visit www.bmw.co.uk/charging

¹ = It is advised that domestic electrical wiring is checked by a qualified electrician. ² = Dependent on local electricity infrastructure and the selected optional equipment. ^{*} = Subject to OLEV subsidy and qualification which may be liable to change. The design of the charging cable may vary from images shown. [†] = Applies to ChargeNow Partner charging points only.

Furthermore, their availability[†] is displayed in real time, indicating whether the points are available for use.

For a monthly fee of £7.85 and pay-as-you-charge access, payment is simple and cashless via the ChargeNow card. You will also receive a detailed itemised statement once a month and can access your account

ASSISTANCE SERVICES.

ASSISTANCE SERVICES.

BMW's portfolio of assistance services offers a broad range of solutions for all daily challenges that customers face. For BMW i drivers, the range of services for BMW vehicles has been complemented with specific eMobility services to make running an electric vehicle simple.

ConnectedDrive applications assist you with charging as well as using your BMW i vehicle. Your BMW i3 will, for example, notify you via your Smartphone application about the current charging status, inform you about the battery State of Charge or remind you if the vehicle needs to be recharged to maintain the battery. And of course BMW i Mobile Care will support you 24 hours a day, 7 days a week in case there is an unforeseen event.

Your BMW i3 also comes with an eight-year / 100,000 mile high voltage battery warranty as standard, to accompany the three-year unlimited mileage vehicle warranty.

BMW i MOBILE CARE.

With the purchase of a BMW i3 and i3s, the comprehensive BMW i Mobile Care package is automatically provided. This ensures that professional help is available via telephone for any unforeseen events that could affect the vehicle or charging infrastructure and, if needed, provides rapid assistance at your location. In the event of an emergency, assistance is available 24 hours a day, wherever you are in the UK, and help is on hand to either recover your vehicle to the most appropriate

M.LY 8002

BMW i Retailer or to find the most practical way to recharge it. In the unfortunate event of your vehicle being off the road, we provide a two-day car hire period so that you can remain mobile, minimising any inconvenience*.

SERVICE INCLUSIVE.

BMW i Service Inclusive: BMW i wants to keep servicing costs simple and transparent to you. That is exactly why our BMW i Service Inclusive packages have been tailored to the requirements of your BMW i3. See BMW Pay Monthly Servicing & Trackstar for pricing information.

* = Mobility will result in the loan of a vehicle and like for like replacements are not applicable as part of the BMW i Mobile Care terms.

WHEELS AND TYRES.

GENUINE BMW i ACCESSORIES.

BMW PAY MONTHLY SERVICING & TRACKSTAR.

SERVICING MADE SIMPLE.

Planning for the road ahead has never been easier. With the BMW Pay Monthly Service Plan¹ you can remove the uncertainty often associated with car servicing costs by spreading them monthly, much like you would your household bills. Our Pay Monthly service plan covers two services and any unused credit can be transferred to another BMW if you decide to switch unexpectedly. As part of the Pay Monthly plan you will also receive a number of added extras including:

- Fluid top ups
- An MOT
- A Wash & Vac each time you visit
- Seasonal health checks
- Sat Nav Map updates

Get the quality service and parts you expect from BMW with a fixed monthly payment. Give your BMW the care and attention it deserves from the experts that made it.

Price: £15 per month for 36 months

Please contact your preferred BMW Centre for further information.

BMW TRACKSTAR.

Locate and recover your vehicle if it is stolen with BMW Trackstar or BMW Trackstar Advance. Benefits include:

- 24/7 Trackstar Monitoring Centre
- Thatcham accredited
- Integrated motion sensor
- Pan-European protection 🌍

The recommended on the road price includes	:
Delivery and BMW i Mobile Care	£825
Number plates	£25
Vehicle first registration fee	£55
First year Vehicle Excise Duty	See left

* = These figures were obtained after the battery had been fully charged. The BMW i3 and i3s 120Ah is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range figures with other cars tested to the same technical procedure. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The CO₂ figures shown above have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent. ^ = The price shown includes the HM Government Plug-In Car Grant of up to a maximum of £3,000 (applied the full price of the basic vehicle including number plates, vehicle excise duty, and VAT). The receipt of this grant is subject to the eligibility of the vehicle for the Plug-In Car Grant scheme at the point of the vehicle's first registration in the UK. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation. Insurance group figures refer to 50 Group Rating System.

BMW CONNECTED DRIVE SERVICES.

BMW ConnectedDrive keeps driver and vehicle connected with the outside world. Digital services, driver-focused technologies and driver assistance systems provide more comfort, more entertainment and more safety. Increase your driving pleasure – with BMW ConnectedDrive.

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see: www.bmw.co.uk/connecteddrive-information

The BMW ConnectedDrive Hotline is available on: +44 (0) 800 561 0555 from Monday to Friday 8am – 7pm and Saturday to Sunday 9am – 5pm.

GENERAL INFORMATION

BMW (UK) Ltd, Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereinafter referred to as "BMW") provides the customer with certain vehicle-related information and assistance functions (hereinafter called "Services") under the name of "BMW ConnectedDrive". BMW collects, stores or processes car-related data in compliance with applicable law and only to the extent necessary to provide the Services. BMW does not collect, store or process personal data in course of the Services – except where this is explicitly stated in the service description of the individual Services. In the case of Services that require personal data to be collected, stored and processed so that such Services can actually be provided, BMW informs customers of this in advance by providing this data protection notice. The Services are provided by means of a SIM card installed in the vehicle.

CONNECTED DRIVE SERVICES DURATION

BMW Connected+	1 year
Online Entertainment (6FV)	1 year
BMW Online Services (6AK)	3 years
Concierge Services (6AN)	3 years
Connected eDrive Services (6AU)	3 years
Real Time Traffic Information (6AM)	3 years
Apple CarPlay [®] preparation (6CP)	Available and active without runtime limitations.
BMW Emergency Call (6AC)	Available and active without runtime limitations.
BMW TeleServices (6AE)	Available and active without runtime limitations.
Remote Services (6AP)	Available and active without runtime limitations.

AVAILABILITY OF THE SERVICE

The complete range of Services is only available for customers whose vehicles are approved in United Kingdom, and only within United Kingdom.

"BMW Emergency Call" (6AC) is available to customers in United Kingdom, Germany, Austria, Italy, San Marino, Vatican, France, Monaco, Switzerland, Liechtenstein, Belgium, Luxembourg, the Netherlands, Ireland, Spain, Andorra, Portugal, Sweden, Norway, Czech Republic, Poland, Turkey and Russia "TeleServices" (6AE), "Concierge services" (6AN), "Remote Services" (6AP) and "BMW Online" (6AK) can be accessed on any mobile communication network in Europe. When used abroad, the range and characteristics of the service may vary from the range and characteristics described above and may vary from country to country. "Real Time Traffic Information" (6AM) is available in United Kingdom, Germany, Austria, Italy, France, the Netherlands, Switzerland, Belgium, Republic of Ireland, Spain, Portugal, Sweden and Norway. "Online Entertainment" (6FV) is available for use in United Kingdom, Germany, France, Italy, Spain, Belgium, Luxembourg, the Netherlands, Austria and Switzerland.

DEACTIVATION

You can have the BMW ConnectedDrive services deactivated through an authorised BMW centre, a BMW subsidiary or a BMW authorised workshop at any time. This also has the consequence that aspects of the emergency call in the vehicle as well as all remaining Services will no longer function.

You can additionally arrange for the remaining Services to be deactivated via "My BMW ConnectedDrive".

If the vehicle is equipped with the legally required EU Emergency Call (as from April 2018) a deactivation of the BMW ConnectedDrive basic services will not deactivate the vehicle's built-in SIM card. It has to remain active, so that the EU Emergency Call is functional all the time.

Services that are available and active without runtime limitations, cannot be guaranteed for permanent usage due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).
